RECITALS

- A. WHEREAS, pursuant to Education Code section 38130, *et seq.* ("Civic Center Act"), the management, direction, and control of school facilities are vested in the District's Board of Trustees ("Board"), and the Board may provide for the use of school facilities as a civic center where such use is consistent with school purposes and does not interfere with the regular conduct of school work; and
- B. WHEREAS, District owns the real property located at 500 Dyer Street, Orcutt, 93455 ("Facility"); and
- C. WHEREAS, OCAF's mission is to provide all children in the District the opportunities to experience and participate in the visual and performing arts by bringing together community resources ("Program"); and
- D. WHEREAS, OCAF desires to use and occupy an office space at the Facility; and
- E. WHEREAS, the District recognizes the benefits the Program provides to District's students and their families and desires to assist OCAF in facilitating the Program by providing the Premises for that use; and
- F. WHEREAS, the District is authorized to contract with OCAF to carry on any program, activity, or may otherwise act in any manner not in conflict with or inconsistent with, or preempted by, any law and is not in conflict with the purposes for which school districts are established; and
- G. WHEREAS, the Parties desire to enter into this MOU to outline the Parties' goals and intentions to facilitate the operations of the Program, establish their respective fiscal and administrative responsibilities, and address other matters of mutual interest.

NOW, THEREFORE, in consideration of the promises and the mutual covenants and agreements set forth herein, the Parties agree as follows:

AGREEMENT

1. **Incorporation of Recitals.** The Recitals above are true and correct and are incorporated as though fully set forth herein.
2. **Purpose.** The purpose of this MOU is to facilitate the continued operation of the Program by OCAF. District agrees to grant to OCAF a license to occupy and use the Premises in order to operate the Program, as provided herein. In exchange, OCAF agrees to make the Program available to District students and their family at no charge.
3. **Premises.** The Premises shall consist of one (1) office at the District Facility, to be determined in the District's sole discretion. The District shall have the right to relocate OCAF in the Facility by providing OCAF thirty (30) day prior written notice. (cf. 6020 - Parent Involvement)

The Superintendent or designee shall regularly review resources available from health experts to ensure that district programs **and operations** are based on the most up-to-date information.

~~The Superintendent or designee shall ensure that the district's comprehensive health education program~~ shall provides **age-appropriate** information about the **nature and symptoms of communicable** ~~prevention of infectious diseases, including the nature of bloodborne pathogens and their transmission, as well as information~~ **and how** to help prevent the spread of contagious diseases, ~~such as a pandemic influenza. He/she shall also ensure that each school has sufficient infection prevention supplies that are easily accessible to staff.~~

(cf. 6142.1 - Sexual Health and HIV/AIDS Prevention Instruction)

(cf. 6142.8 - Comprehensive Health Education)

If the local health officer notifies the district of an outbreak of a communicable disease, or the imminent and proximate threat of a communicable disease outbreak or epidemic that threatens the public's health, the district shall take any action that the health officer deems necessary to control the spread of the disease. Universal Precautions

Students and staff shall observe universal precautions in order to prevent exposure to bloodborne pathogens and to prevent the spread of infectious diseases.

(cf. 5141 - Health Care and Emergencies)
(cf. 6145.2 - Athletic Competition)

Students with Infectious Diseases

The Superintendent or designee shall exclude students **from on-campus instruction** only in accordance with law, Board policy, and administrative regulation. Because bloodborne pathogens such as hepatitis B virus, hepatitis C virus, and human immunodeficiency virus (HIV) are not casually transmitted, the presence of infectious conditions of this type is not, by itself, sufficient reason to exclude students from attending school.

(cf. 5112.2 - Exclusions from Attendance)
(cf. 6164.6 - Identification and Education Under Section 504)

Parents/guardians are encouraged to inform the Superintendent or designee if their child has an infectious disease so that school staff may work cooperatively with the student's parents/guardians to minimize ~~the child's~~ exposure to other diseases in the school setting. **If necessary, the Superintendent or designee shall inform the local health official of any potential outbreak.** The Superintendent or designee shall ensure that student confidentiality **and privacy** rights are strictly observed in accordance with law.

Policy Adopted: ~~12/13/06~~ 11/6/2020

ORCUTT UNION SCHOOL DISTRICT
Orcutt, California

PROCEDURAL SAFEGUARDS AND COMPLAINTS FOR SPECIAL EDUCATION

Note: The following mandated policy reflects the federal Individuals with Disabilities Education Act (20 USC 1400-1482), implementing federal regulations (34 CFR 300.1-300.818), and conforming state legislation. Note that in cases where state law provides greater protections to students, state law supersedes federal law.

Note: Education Code 56195.8 and 20 USC 1415 mandate all entities providing special education to adopt policy on procedural safeguards, and Education Code 56500.1 requires entities providing special education to establish and maintain all procedural safeguards granted by federal law. For California law related to due process rights and due process hearing rights and procedures, see Education Code 56501-56509 and 5 CCR 3082. For federal due process procedure requirements, see 34 CFR 300.500-300.520.

Note: This policy and accompanying administrative regulation should be revised for consistency with the policy and regulations of the Special Education Local Plan Area in which the district participates.

Procedural Safeguards/Due Process Hearings

~~In order to protect the rights of students with disabilities and their parents/guardians, the district shall follow all procedural safeguards as set forth in law.~~

~~Parents/guardians shall receive written notice of their rights, including the right to a due process hearing for any dispute related to the identification, assessment or educational placement of a child or the provision of a free, appropriate public education to the child.~~

~~(cf. 5145.6 - Parental Notifications)
(cf. 6159 - Individualized Education Program)~~

The Governing Board recognizes its obligation to provide a free appropriate public education (FAPE) to students with disabilities and to uphold the rights of parents/guardians to be involved in educational decisions regarding their child. Parents/guardians of students with disabilities shall receive written notice of their rights under the federal Individuals with Disabilities Education Act.

~~(cf. 5144.2 - Suspension and Expulsion/Due Process (Students with Disabilities))
(cf. 5145.6 - Parental Notifications)
(cf. 6159 - Individualized Education Program)
(cf. 6159.2 - Nonpublic, Nonsectarian School and Agency Services for Special Education)
(cf. 6159.3 - Appointment of Surrogate Parent for Special Education Students)
(cf. 6159.4 - Behavioral Interventions for Special Education Students)
(cf. 6164.4 - Identification and Evaluation of Individuals for Special Education)~~

Whenever there is a dispute between the district and the parent/guardian of a student with disabilities regarding the identification, assessment, or educational placement of the student or the provision of FAPE to the student, the Superintendent or designee shall encourage the early, informal resolution of the dispute at the school level to the extent possible. The district or parent/guardian may also request mediation and/or a due process hearing in accordance with law, Board policy, and administrative regulation.

Note: Education Code 56195.8 authorizes the Governing Board to adopt policy for the involvement of Board members in any due process hearing procedure activities. However, a best practice is to designate the Superintendent or designee to serve as the district representative at the hearing. The following optional paragraph. may be revised to reflect district practice.

The Superintendent or designee shall represent the district in any due process hearings conducted with regard to district students and shall ~~provide~~ inform the Board of Trustees ~~with~~ about the results of these hearings.

Complaints for Special Education

~~Complaints concerning compliance with state or federal law regarding special education shall be addressed in accordance with the district's uniform complaint procedures.~~

~~(cf. 1312.3 – Uniform Complaint Procedures)~~

Note: 5 CCR 3200-3205, as added by Register 2020, No. 21, require complaints alleging a violation of federal or state law or regulation related to the provision of a free appropriate public education to students with disabilities to be submitted to the California Department of Education rather than being addressed through the district's uniform complaint procedures as described in BP/AR 1312.3 - Uniform Complaint Procedures. For further information regarding state compliance complaints, see the accompanying administrative regulation.

Any complaint alleging the district's noncompliance with federal or state laws or regulations related to the provision of a free appropriate public education to students with disabilities shall be filed in accordance with 5 CCR 3200-3205.

NONPUBLIC, NONSECTARIAN SCHOOL AND AGENCY SERVICES FOR SPECIAL EDUCATION

Note: Education Code 56195.8 mandates districts to adopt policies for the special education programs and services they operate, including nonpublic, nonsectarian services provided to students with disabilities when no appropriate public education program is available to meet their special education needs. The nonpublic, nonsectarian school or agency (NPS/A) must be certified as meeting state standards pursuant to Education Code 56366 and 56366.1.

Note: The following policy and accompanying regulation should be revised to comply with the policies and regulations of the Special Education Local Plan Area in which the district operates.

The Board of Trustees recognizes its responsibility to provide ~~all district students, including students with disabilities,~~ a free appropriate public education **to students with disabilities** in accordance with law. When the district is unable to provide direct special education and/or related services to students with disabilities, the Board may enter into a contract with a nonpublic, nonsectarian school or agency (NPS/A) to meet ~~the students'~~ needs **consistent with the comprehensive local plan of the Special Education Local Plan Area.**

(cf. 0430 – Comprehensive Local Plan for Special Education)

(cf. 1312.3 – Uniform Complaint Procedures)

(cf. 3541.2 – Transportation for Students with Disabilities)

(cf. 6146.4 – Differential Graduation and Competency Standards for Students with Disabilities)

Note: Pursuant to Education Code 56366 and 56366.1, a district contracting with an NPS/A must verify that the NPS/A meets certification requirements. 5 CCR 3067 allows the district to request, in writing, that the California Department of Education review the certification status of an NPS/A.

Note: Beginning in the 2020-21 school year, Education Code 56366.1, as amended by AB 1172 (Ch. 454, Statutes of 2019), also requires districts to verify that the NPS/A provides staff training in the use of evidence-based practices and interventions specific to the unique behavioral needs of the NPS/A's student population.

~~In selecting nonpublic, sectarian schools or agencies with which the district may contract for placement of any district student with disabilities, the Superintendent or designee shall follow the procedures specified in law and accompanying administrative regulation.~~

Prior to entering into a contract to place any student in an ~~nonpublic, nonsectarian school or agency~~ NPS/A, the Superintendent or designee shall verify that the school or agency is certified to provide special education and related services to individuals with disabilities **and complies with staff training requirements** in accordance with Education Code 56366

and 5366.1. In addition, the Superintendent or designee shall monitor, on an ongoing basis, the certification of any ~~nonpublic nonsectarian school~~ NPS/A with which the district has a contract to ensure that the ~~school or agency's~~ certification has not expired.

No district student shall be placed in an ~~nonpublic, nonsectarian school or agency~~ NPS/A unless the student's individualized education program (IEP) team has determined that an appropriate public education alternative does not exist and that the ~~nonpublic, nonsectarian school or agency~~ placement is appropriate for the student. ~~In accordance with law, any student with disabilities placed in a nonpublic, nonsectarian school or agency shall have all the rights and protections to which students with disabilities are generally entitled, including, but not limited to, the procedural safeguards, due process rights, and periodic review of his/her IEP.~~ (Education Code 56195.8, 56342.1)

(cf. 6159 – Individualized Education Program)

(cf. 6159.1 – Procedural Safeguards and Complaints for Special Education)

(cf. 6164.4 – Identification and Evaluation of Individuals for Special Education)

Note: Pursuant to Education Code 56365, students enrolled in an NPS/A are deemed to be enrolled in public schools for state apportionment purposes. Districts then pay to the NPS/A the full amount of the school tuition or, as amended by AB 1172, the agency fees for participating students.

The district shall pay to the NPS/A the full amount of the tuition or fees, as applicable, for students with disabilities who are enrolled in programs or receiving services provided by the NPS/A. (Education Code 56365)

In accordance with law, any student with disabilities placed in an NPS/A shall have all the rights and protections to which students with disabilities are generally entitled, including, but not limited to, procedural safeguards, due process rights, and periodic review of the student's IEP.

(cf. 6159.1 - Procedural Safeguards and Complaints for Special Education)

During the period when any student with disabilities is placed in an ~~nonpublic, nonsectarian school or agency~~ NPS/A, the student's IEP team shall retain responsibility for monitoring the student's progress towards meeting the goals identified in ~~his/her~~ the IEP.

Note: The following optional paragraph may be modified to reflect district practice.

The Superintendent or designee shall notify the Board prior to approving an out-of-state placement for any district student.

The Superintendent or designee may apply to the Superintendent of Public Instruction to waive any of the requirements of Education Code 56365, 56366, and 56366.6. (Education Code 56366.2)

(cf. 1431 - Waivers)

1	Parent Waiting Area Fencing and Mow Strip	5	Owner Requested/Design Issue – Upon completion of the seating wall at the parent waiting area, it was determined that the contract design for the fencing around the parent waiting area was not sufficient, as it allowed an intrusion opportunity if an individual were to use the seat wall as a prop to get over the originally designed 6’ tall fencing. To remedy the potential intrusion issue, the fencing and mow-curb was shifted away from the seating wall 4’. The gap created by shifting the fencing 4’ was graded to allow for a future installation of landscaping by the District. In addition to the revisions stated, this change order also included revising the location of the entrance gate at the parent seating area in-order to meet ADA requirements. The costs associated with these revisions include labor, equipment and materials for demolition of the existing asphalt pavement behind the parent seating area, additional lineal feet of mow strip/fencing and added concrete work to ensure the gate landing is ADA compliant.	\$15,841.71
2	Irrigation Controller	10	Design Issue/District Requested - A lower quality battery powered irrigation controller was specified within the bid documents to be installed near the new modular classrooms. The District has recently updated their district standard irrigation controller to the Irritrol Strong-Box Controllers which include important features to adjust watering as needed based on current site conditions. The costs associated with this change include placement of a concrete pad to mount the strong-box, additional electrical to provide the necessary provisions to the controller box and set-up/programming of the irrigation controller.	\$5,962.00
3	Hand Rail Revisions	11	Design Issue – Per the DSA Field Engineer’s review of the site hand rails, additional handrails were requested to satisfy DSA’s requirements at the front of the new modular classroom for project certification. 3	Added Hand Rail & Fencing	25	Owner Requested – Refer to PCO 023 for layout revisions at flatwork at the upper parking lot. Protocols

STRUCTURE AND PROCESS

Effective Governance Teams discuss and agree upon the formal structures and processes, or protocols, used by the Board and Superintendent in their functioning as a team. These structures and processes guide the operation of the Governance Team and determine how they do business. Protocols are the agreements that ensure that all members of the team are operating within their agreed upon roles.

The following protocols were developed by the Governance Team.

Protocols to Facilitate Governance Leadership:

	Confidentiality
Rationale	<ul style="list-style-type: none">• The governing board recognizes the importance of maintaining the confidentiality of information acquired as part of a board member's official duties.
Protocol	<ul style="list-style-type: none">• All trustees will strive to maintain the public's trust by not breaching confidentiality including all information from closed session• A trustee who inadvertently or accidentally violates a confidential issue, will take immediate responsibility for correcting the action and notifying the superintendent and/or president of the board.

	Receiving Community or Staff Concerns and/or Complaints
Rationale	<ul style="list-style-type: none">• Board members want to be accessible, responsive, consistent and fair in dealings with complaints and concerns from the community and staff.• The board values open communication and timely resolution of issues.
Protocol	<p>When approached with an issue or concern, trustees agree to:</p> <ul style="list-style-type: none">• Listen openly, being careful to remain neutral, except when the issue is one that may come before us in our judicial role (personnel issues and student discipline). That information will be shared with the entire Board at the appropriate place and time - during the hearing. In that case, we will explain to the complainant that listening to their concern will require us to recuse ourselves when the matter does come before the

	<p>Board, much the same way that a juror would be removed from the jury box for hearing evidence outside the courtroom during a trial.</p> <ul style="list-style-type: none"> • Remind staff and members of the community that no individual trustee has the authority to solve the issue/concern. • Encourage addressing this with the person who can most directly help with their concern, e.g. teacher, principal, superintendent. • Trustees will notify the superintendent of the issue or concern, as appropriate.
--	--

Requesting Information from Staff	
Rationale	<ul style="list-style-type: none"> • Critical to the ability of trustees to make informed decisions is timely access to information. • The superintendent wants to be responsive to requests for information, maintain the focus on district priorities and balance the management of staff time. Staff includes both district and site level leadership.
Protocol	<ul style="list-style-type: none"> • Trustees will always include the superintendent when asking questions or requesting additional information on board meeting agenda items, as well as other district operational matters. • The superintendent will ensure timely responses to requests and will provide the information or direct trustees to the correct source if the requested information could be used in decision making. The superintendent will distribute answers to all trustees. • If a request for information would take a significant amount of staff time to complete, the request will be brought to the board to decide whether to support the request.

Role of the Board President and Agenda setting	
Rationale	<ul style="list-style-type: none"> • The board has an obligation to set an example of good government in action for the community. • The board intends for meetings to proceed professionally, efficiently and effectively. • The board president sets the tone and shapes the public’s perception of the school board. • Each board member must have the opportunity to express his or her viewpoint during board deliberation.
Protocol	<ul style="list-style-type: none"> • The board president should meet with the superintendent at least once a month to develop the board meeting agenda. • Board members wishing to place topics on the board agenda will forward them to the board president for discussion with the superintendent at agenda setting meetings. • The board president facilitates the board meeting, supporting the effective flow of the discussion and encouraging input from all trustees while staying on task and moving forward. The board president will

	<p>model the tone and manner the board wishes to convey to the community.</p> <ul style="list-style-type: none"> • Following the board meeting, the board president with the superintendent will ensure there is appropriate follow-up and clarification of possible options for the board. • The board president serves as the primary spokesperson for the board. • The board president position will be determined annually through a rotation process. • Direction to the Superintendent/staff shall be at the request of the board, individual board members do not have the authority to direct superintendent/staff work.
Visiting Schools and School Events	
Rationale	<ul style="list-style-type: none"> • The board wants to be informed about instructional practices, and the needs of the students and staff with regard to school programs. • Visiting schools provides the opportunity to show appreciation and recognize staff for their work. • Site visits are not meant to be evaluative in nature or disruptive to classroom instruction.
Protocol	<ul style="list-style-type: none"> • Board members will have access to the school calendars and are encouraged to visit schools and attend school events. • Site visits will be arranged through the Superintendent, who will accompany Board Members on their visits. • The principal or assistant principal will accompany trustees on classroom visits. • The superintendent will ensure that staff is aware of the process and protocols for trustees visiting the classrooms. • It is understood that Board members share with the Superintendent, any concerns or issues brought up during a “Board Walk”. • Zoom classroom session visitations by Board members will be arranged by the site principal

Communication	
Rationale	<ul style="list-style-type: none"> • The board wants to communicate a consistent message and common vision to the community
Protocol	<ul style="list-style-type: none"> • When contacted by the media, board members will refer the media to the board president, and/or the superintendent. • The Superintendent is the spokesperson for the district and the Board President is the spokesperson for the board. • If the press contacts the district office or superintendent, the board will be notified, as necessary.

	<ul style="list-style-type: none"> • School board members should always conduct themselves online in a manner that reflects well of the school board and school district. • When speaking publicly or posting on social media, a board member shall clarify that he/she is speaking as an individual, and not as an official school board member. • School board members shall refrain from deliberating board business online. The use of social media by board members to discuss board business among themselves is prohibited, including indicating approval such as a “like”. • A school board member shall not post statements that make it appear that he/she has already formed an opinion on matters pending school board approval. • In light of the sensitivity of many school board matters and the risk of inadvertent disclosure of confidential materials, school board members should limit the use of social media to sharing content already released to the public by the school district. • Decisions on matters before the board shall be based on fact rather than supposition, opinion or public favor. • Any communication, including social media posts, that were used in the transaction of official business are subject to retention. Correspondence or posts about district business must be retained if the content goes beyond simply sharing existing district content (like a link to the district website) or routine correspondence (such as the date, time, and location of the next board meeting) • Response to written correspondence (including e-mail) shall be sent by the Board President or Superintendent on behalf of the Board.
--	---

Welcoming/Orienting New Board Members	
Rationale	<p><u>We believe:</u></p> <ul style="list-style-type: none"> • New board members should feel welcomed and have opportunities to get to know other members of the governance team. • It is important to have opportunities to” heal any wounds” from the election process. • New board members need educational support and training from the governance team and outside sources (i.e., CSBA Institute for New and First Term Board Members). • New board members need to learn about the district and understand the district’s vision, purpose and culture. • New board members need to feel that they are part of our team and should participate in developing agreements about how we will work together.
Protocol	<p><u>We Agree that:</u></p> <ul style="list-style-type: none"> • Prior to the election an orientation will be held for all School Board Candidates. At this meeting the following information/items will be shared with potential new Board Members:

EDUCATIONAL SERVICES MEMORANDUM

TO: Board of Trustees
Holly Edds, Ed.D.

FROM: Janet Bertoldi, Interim Assistant Superintendent, Educational Services

BOARD MEETING DATE: November 4, 2020

BOARD AGENDA ITEM: School Plans for Student Achievement for Orcutt Junior High School, Patterson Road, Pine Grove, and Ralph Dunlap

BACKGROUND: In 2001, the California Legislature amended the planning requirement for schools that participate in state and federal categorical programs. These changes streamline the planning process and consolidate the plans for all categorical funds expended at each school site under the umbrella of the plan. These plans are revised annually by each school site council.

RECOMMENDATION: This evening the School Site Plans for Student Achievement for Orcutt Junior High School, Patterson Road, Pine Grove, and Ralph Dunlap are submitted for board approval as required in California statute. Staff recommends these be approved as submitted.

FUNDING: There are no funding implications.

School Year: **2020-21**

School Plan for Student Achievement (SPSA) Template

The School Plan for Student Achievement (SPSA) is meant to consolidate all school-level planning efforts into one plan for programs funded through the consolidated application (ConApp), pursuant to the California Education Code (EC) Section 64001 and the Elementary and Secondary Education Act as amended by the Every Student Succeeds Act (ESSA).

The purpose of the SPSA is to increase the overall effectiveness of the school program by crafting a strategic plan that maximizes the resources available to the school while minimizing duplication of effort with the ultimate goal of increasing student achievement.

The School Site Council (SSC) is required to develop and annually review the SPSA, establish an annual budget, and make modifications in the plan to reflect changing needs and priorities, as applicable, pursuant to EC 52853(b) and 52855.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. The SPSA provides schools with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for schools to innovate with their federally-funded programs and align them with the priority goals of the school and the LEA that are being realized under the state's Local Control Funding Formula (LCFF).

LCFF provides schools and LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The SPSA planning process supports continuous cycles of action, reflection, and improvement.

Analysis

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

Each of the above Actions/Services were successfully implemented for the 2019-2020 school year. Our school staff continues to work on initiatives that were implemented over the past few years including new curriculum adoptions, new assessment and accountability measures with the California Dashboard, implementation of a Master Schedule to allow for expanded Professional Learning Communities (PLC)s and music, art, and PE instruction to occur, and continued targeted instruction for students.

Increased access to a 21st Century Curriculum and instructional design was the result of professional development throughout the school year. Modeling different ways of teaching and learning and the opportunities technology provides for students as well as changing the way we do business is essential to growth and truly moving into the 21st Century.

Patterson Road successfully implemented a master schedule that allowed for all students to receive thirty minutes of visual art and classroom music instruction and 75 minutes of physical education instruction per week. This schedule also allows for ELD instruction and targeted intervention for identified students, and enrichment for other students. This approach allows for protection of key blocks of time for instruction and the ability to coordinate pull out services school-wide. The Teachers on Special Assignment (TOSAs) worked closely with the principal and teachers to assist with the development of the schedule and with teachers on effective research-based practices for targeting instruction.

Due to school closure, TOSAs transitioned during the year from supporting teachers with implementation of state standards and academic intervention to helping teachers with distance learning.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

The goal to provide and support engaging, high quality instruction, which promotes active learning and maximizes student achievement, was a priority once again for the 2019-2020 school year. The actions and services supported achievement of that goal, targeted intervention programs, English Learner support, and the use of universal screening data to inform and drive instruction. Each of these actions/services are complementary to the others and are effective as measured by stakeholder input and student achievement data. There was also a concentrated effort to provide specific support and strategies to English learners classified as newcomers and Long Term English Learners.

The integration of technology will continue to be a priority and professional development will be centered around the use of technology to support global learning and citizenship. Professional development and teachers innovating with new ways of teaching and learning is what makes the difference and this philosophy has been the primary driver in the purchase of and integration of technology in classrooms, with priority given to schools serving English Learners, Low Income students, and Foster Youth.

Time built into the school day for Professional Learning Community meetings continues to have a positive impact due to conversations and collaboration around student learning. Requests had been made in prior years for additional time to implement new district-wide initiatives and the result was a second block of time for elementary teachers while students attended music, PE, and art instruction. This additional time has given teachers an opportunity to have deeper conversations about student learning, work collaboratively to improve instruction and implementation of district adopted curriculum, and have continued conversations about student learning. This is an ongoing process and we are continuing to learn as we improve practice. Teachers will continue to meet weekly to discuss student progress, examine results from formative assessments, and collaborate on successful strategies for teaching/learning.

We will continue to focus on targeted intervention using research-based strategies along with standards-aligned English language arts materials to increase student achievement growth.

NWEA testing did not take place beyond Winter 2020 and no state CAASPP testing occurred in Spring 2020. Therefore, staff have no norm-referenced measure of student progress in English Language Arts over the entirety of the school year. The Acadience assessment show that students participating in the SIPPS reading intervention program made notable progress to the point of school closure, with some students able to test out of SIPPS when reading screenings were done in September 2020.

Explain any material differences between the Proposed Expenditures and Estimated Actual Expenditures.

There were few differences between Budgeted Expenditures and Estimated Actual Expenditures.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

An analysis of the data and conversations with staff indicate a continued need for targeted strategies to increase student academic success. Increased interventions will be provided by the teachers in ELA and math. The goal to provide and support high quality instruction, which promotes active learning and maximizes student achievement is a priority for the 2020-2021 school year.

Bridging the digital divide for students, specifically for identified subgroups will continue to be a priority. Continued professional development, including modeling and coaching, is needed in this area. Providing 21st Century Curriculum and increasing the integration of 21st Century learning skills (including the integration of technology into learning) continues to be a goal. District TOSAs will continue to support the integration of technology with the district adopted curriculum and tools for classroom teacher.

The school will need to respond assertively to the learning loss suffered by many students during the school closure period from mid-March through early June. Reading screenings and SIPPS intervention were launched in September 2020, so students can make academic progress in 2020-2021. Teachers also will need to implement the English/language arts curriculum with a focus on acceleration, not remediation.

Analysis

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

Each of the above Actions/Services were successfully implemented for the 2019-2020 school year. Our school staff continues to work to implement initiatives that were implemented over the past few years including new curriculum adoption in Mathematics, new assessment and accountability measures with the California Dashboard, implementation of a Master Schedule to allow for expanded Professional Learning Communities (PLC)s and music, art, and PE instruction to occur, and continued targeted instruction for students.

One of our district-wide professional development days in 2018-2019 was dedicated to teaching mathematics concepts. Most teachers participated in a wide range of professional development that occurred during the school shut down (COVID-19) in the Spring. Teachers continue to use the knowledge they gained to deliver a more effective distance learning opportunity to students.

Time built into the school day for Professional Learning Community meetings continues to have a positive impact due to conversations and collaboration around student learning. Requests had been made in prior years for additional time to implement new district-wide initiatives and the result was a second block of time for elementary teachers while students attended music, PE, and art instruction. Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

The goal to provide and support engaging, high quality instruction, which promotes active learning and maximizes student achievement was a priority once again for the 2019-2020 school year. The actions and services supported achievement of that goal, most especially targeted intervention programs, English learner support, and the use of universal screening data to inform and drive instruction. Each of these actions/services are complimentary to the others and effective as measured by stakeholder input and student achievement data. We remain committed to implementing the new curriculum. As we see results from targeted math instruction, additional professional development will be needed in the intermediate grades to address the needs of students functioning at higher academic levels. There was also a concentrated effort to provide specific support and strategies to English learners.

Success was also greatly contributed to the following items: (1) Consultant's increased time with grade level teams, TOSAs, and principal to enhance best practices and strategies and assist with progress monitoring and intervention; and (2) PLC Tier 1 and Tier 2 time available weekly for teachers to collaborate.

NWEA testing did not take place beyond Winter 2020 and no state CAASPP testing occurred in Spring 2020. Therefore, staff does not have norm-referenced measure of student progress in math over the entirety of the school year. Staff will need to have a systematic math intervention program that fills a role similar to what SIPPS does for reading intervention. The challenges presented by COVID-19 may prevent that from happening in 2020-2021.

Analysis

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

Implemented PBIS Tier 1 to provide school-wide and classroom research-based positive behavioral and socio-emotional supports for all students, including students of poverty, students with disabilities, English learners, and students from all ethnicities. Students were encouraged by the teacher to attend and engage in school daily. A concentrated effort to identify students making correct choices inside and outside the classroom helped create a positive school environment.

A school counselor is available for individual and small group counseling to support the social emotional needs of students.

All strategies listed in the plan were implemented up to the point of school closure. During the distance learning period of mid-March through the end of the year, the truancy process was put on hold because student participation was not compulsory.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

While overall attendance is strong, the school continues to experience chronic absenteeism at percentages, both overall and with subgroups, that are unacceptable. The reasons for this vary by student, although staff have seen an increase in the percentage of students experiencing emotional/mental health issues that get in the way of regular school attendance. These cases typically involve lots of individual contact between school office staff and administrators and the parents/guardians of the students. An analysis of the data and conversations with staff indicate a continued need for targeted strategies to increase attendance rates for student groups.

With school attendance during distance learning returning to compulsory/required status for 2020-2021, staff will need to do even more frequent screenings of attendance/engagement data to see issues of chronic attendance and work to address them. Schools will participate in a successive response to student disengagement starting with the teacher, continuing with involvement by a school team led by the principal, and if necessary continuing with involvement by the district Educational Services Department. The focus will be on problem-solving and addressing barriers to attendance. Resources such as WiFi hot spots, after-hours technology support, and after-hours support from a teacher will be utilized to overcome some of these barriers. The truancy process and School Attendance Review Board will be a last resort.

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

All of the activities outlined in the plan were implemented. School and family use of Parent Square went up dramatically in 2019-2020, as it became the primary platform for the principal, teachers, and office staff to communicate with parents during school closure.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

Parent Square has continued to be a highly effective platform for school-home communication. Its ability to translate posts and text alerts into Spanish has proven extremely helpful for many families. Community liaisons provide indispensable support in translating for, and supporting, many families. The district put together parent education nights on compelling topics, but attendance remains low. Staff would like to see more parents capitalizing on these informative events.

Analysis

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

All of the activities stated here were implemented, although PBIS and most of the cocurricular/extracurricular activities came to a halt during school closure. Teachers and staff encourage the importance of the Positive Behavioral Intervention Support (PBIS) program to students and parents. PBIS behavior strategies were implemented with fidelity. These strategies included teacher and student created behavior matrices, Pride of Patterson character award assemblies, classroom and office referral system, and monthly PBIS Pride Passport Days.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

PBIS is making an impact on schools. School stakeholders have appreciated the opportunity to discuss what they want to see in students, come to consensus around common expectations, and articulate and teach those expectations to students. Students have the opportunity to engage in district provided programs during the school year. Schools are keeping and analyzing data on Office Discipline Referrals (ODRs). The school will continue their work on strategies/activities to accomplish the goal of a low suspension rate. School closure mid-March contributed to the decrease in the suspension rate.

Explain any material differences between the Proposed Expenditures and Estimated Actual Expenditures.

There were few differences between Budgeted Expenditures and Estimated Actual Expenditures.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

Activities described in this section will need to be adjusted in 2020-2021 to fit the world of distance learning and blended learning (mix of in-person instruction and distance learning). Schools have made revisions in PBIS expectations to account for what they need from students in distance learning; meanwhile, those expectations will play an important role in retraining students to be on campus when schools are re-opened for blended learning. Schools are putting a greater emphasis on social/emotional learning in response to the stresses students and families are experiencing during the COVID-19 pandemic. Lessons in digital citizenship may help are being offered to address cyberbullying.

Goals, Strategies, & Proposed Expenditures

Goal 1

Subject

Proficiency in ELA

Goal Statement

All students and student sub-groups will demonstrate growth on state and local measures in the area of English Language Arts with the goal of all students achieving proficiency.

LCAP Goal

Provide and support engaging and high quality instruction, which promote active learning and maximize student achievement in the area of Language Arts.

Basis for this Goal

Students need to be equipped with literacy skills to be able to compete in college as well as successfully pursue their chosen career path. All students, particularly our English Learners, Students with Disabilities, and Low Income students, need to have access to the core instructional program and instruction that will meet their needs as individual learners. Today's learner is markedly different from learners of the past, and research has demonstrated there are effective strategies that work. Teachers and staff need to have the training, support, and time to implement shifts in instructional practices in order to best support the needs of students. Areas for specific focus include ELA instruction, particularly for at-risk youth and English Language Development instruction for English Learners.

Goals, Strategies, & Proposed Expenditures

Goal 3

Subject

Academic Engagement: Chronic Absenteeism

Goal Statement

All students and student groups will demonstrate an increase in daily school attendance and decrease in chronic absenteeism.

LCAP Goal

Provide a rich diverse curriculum in a positive and safe atmosphere to address the needs of the whole child.

Basis for this Goal

According to the National Center for Education Statistics, attendance is an important factor in student achievement. The primary rationale for high-quality attendance data is the relationship between student attendance and student achievement. Chronic student absence reduces even the best teacher's ability to provide learning opportunities. Students who attend school regularly have been shown to achieve at higher levels than students who do not have regular attendance. Poor attendance has serious implications for later outcomes as well. High school dropouts have been found to exhibit a history of negative behaviors including high levels of absenteeism throughout their childhood at higher rates than high school graduates. These differences in absentee rates were observed as early as kindergarten, and students who eventually dropped out of high school missed significantly more days of school in first grade than their peers who graduated from high school. Any absence, whether excused or not, denies students the opportunity to learn in accordance with the school's instructional program, but students who miss school are sometimes further excluded from learning opportunities as a consequence of chronic absenteeism.

Expected Annual Measurable Outcomes

Metric/Indicator	Baseline	Expected Outcome
Attendance Rate	Attendance rates for all students was 96% for grades K-3 and 96.96% for grades 4-6.	Increase attendance rate to 97% for "All" students in grades K-3 and 4-6
Chronic Absenteeism Rate	2019-20 Chronic Absenteeism was 6.2% for "All" students.	Decrease Chronic Absenteeism by 2% for "All" students Goal: 4.2% "All" Students

Goal 4

Subject

Parent and Family Engagement

Goal Statement

Students and parents/guardians will experience caring relationships with teachers and school staff, with the goal of 100% reporting they experience caring relationships with school staff all or most of the time.

LCAP Goal

Provide a rich and diverse curriculum in a positive and safe atmosphere to address the needs of the whole child.

Basis for this Goal

The Harvard Family Research Project concluded that parental involvement is associated with higher student achievement. They found that student success was higher in a variety of areas including standardized test scores, grades, and teacher ratings. Students are also more likely to enroll in higher-level programs, pass their classes, attend school regularly, have better social skills and move onto post-secondary education. The keys to success they shared were to (1) communicate regularly (2) Provide volunteer opportunities and (3) provide interactive homework assignments.

Subject

Conditions & Climate: Suspension Rate

Goal Statement

All students and student groups will demonstrate a decrease in the rate of suspension from school

LCAP Goal

Provide a rich and diverse curriculum in a positive and safe atmosphere to address the needs of the whole child

Basis for this Goal

The Learning Policy Institute shares that over the past several decades, researchers have noted that the overuse of suspensions and expulsions, particularly for students of color, has contributed significantly to dropout rates and the perpetuation of the "school-to-prison pipeline". Further, students of color and those with disabilities are suspended at a rate that is disproportionate to that of their White and non-disabled peers for comparable behaviors. The other effect of a student missing school due to a suspension is the resulting loss of student learning and affect on student achievement

Expected Annual Measurable Outcomes

Metric/Indicator	Baseline	Expected Outcome
Suspension/Expulsion Rate	Suspension/expulsion rates for students and each subgroup. Total Suspension Rate: 2% / Students Suspended: 1.7%. Low SES = 1.4% EL = 0% Students with disabilities = 0.3% Hispanic = 0.8% White = 0.5% 0% Expulsion	Decrease/Maintain suspension/expulsion rates for all students and subgroups under 2%.

The SSC shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school. The current make-up of the SSC is as follows:

- 1 School Principal
- 3 Classroom Teachers
- 1 Other School Staff
- 5 Parent or Community Members

Name of Members	Role
Julie Kozel	Principal
Allison Grupe	Parent or Community Member

The School Site Council (SSC) recommends this school plan and proposed expenditures to the district governing board for approval and assures the board of the following:

The SSC is correctly constituted and was formed in accordance with district governing board policy and state law.

The SSC reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the School Plan for Student Achievement (SPSA) requiring board approval.

The SSC sought and considered all recommendations from the following groups or committees before adopting this plan:

Stakeholder Involvement

Meaningful involvement of parents, students, and other stakeholders is critical to the development of the SPSA and the budget process. As such, the SPSA should be shared with, and schools should request input from, school site-level advisory groups, as applicable (e.g., English Learner Advisory Councils, student advisory groups, etc.).

Describe the process used to involve advisory committees, parents, students, school faculty and staff, and the community in the development of the SPSA and the annual review and update.

Goals, Strategies, & Proposed Expenditures

In this section a school provides a description of the annual goals to be achieved by the school. This section also includes descriptions of the specific planned strategies/activities a school will take to meet the identified goals, and a description of the expenditures required to implement the specific strategies and activities.

Goal

State the goal. A goal is a broad statement that describes the desired result to which all strategies/activities are directed. A goal answers the question: What is the school seeking to achieve? A school may number the goals using the "Goal #" for ease of reference.

Basis for this Goal

Describe the basis for establishing the goal. The goal should be based upon an analysis of verifiable state data, including state indicator data from the California School Dashboard (Dashboard) and data from the School Accountability Report Card, and may include any data voluntarily developed by districts to measure pupil achievement.

Expected Annual Measurable Outcomes

Identify the metric(s) and/or state indicator(s) that the school will use as a means of evaluating progress toward accomplishing the goal. A school may identify metrics for specific student groups. Include in the baseline column the most recent data associated with the metric or indicator available at the time of adoption of the SPSA. The most recent data associated with a metric or indicator includes data reported in the annual update of the SPSA. In the subsequent Expected Outcome column, identify the progress the school intends to be make in the coming year.

Planned Strategies/Activities

Describe the strategies and activities being provided to meet the described goal. Strategies and activities that are implemented to achieve the identified goal may be grouped together. A school may number the strategy/activity using the "Strategy/Activity #" for ease of reference.

A school receiving funds allocated through the ConApp is required to describe in their strategies and activities how they will address specific state and federal requirements. A list of these requirements may be found in Appendix A: Plan Requirements for Schools Funded Through the ConApp. At a minimum a school receiving funds allocated through the ConApp must address these requirements; however, a school may describe additional strategies/activities as well.

Students to be Served by this Strategy/Activity

Indicate in this box which students will benefit from the strategies/activities by indicating “All Students” or listing one or more specific student group(s) to be served.

Proposed Expenditures for this Strategy/Activity

For each strategy/activity, list and describe the proposed expenditures for the school year to implement these strategies/activities, including where those expenditures can be found in the school’s budget. The school should reference all fund sources for each proposed expenditure and should provide budget references as an object code or an object code description.

Proposed expenditures that are included more than once in a SPSA should be indicated as a duplicated expenditure and include a reference to the goal and strategy/activity where the expenditure first appears in the SPSA.

Annual Review and Update

The planned goals, expected outcomes, planned strategies/activities, and proposed expenditures must be copied verbatim from the previous year’s approved SPSA. Minor typographical errors may be corrected.

Annual Measurable Outcomes

For each goal in the prior year, provide the metric/indicators, the expected outcomes, and the actual outcomes; review the actual outcomes as compared to the expected outcomes identified in the prior year for the goal.

Strategies/Activities

Identify the planned strategies/activities and the proposed expenditures to implement these strategies/activities toward achieving the described goal, then identify the actual strategies/activities implemented to meet the described goal and the estimated actual expenditures to implement the strategies/activities. As applicable, identify any changes to the student groups served.

Analysis

Using actual outcome data, including state indicator data from the Dashboard, analyze whether the planned strategies/activities were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the strategies/activities to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process.
- Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.
- Explain any material differences between Proposed Expenditures and Estimated Actual Expenditures. Minor variances in expenditures or a dollar-for-dollar accounting is not required.
- Describe any changes that will be made to the goal, expected annual measurable outcomes, metrics/indicators, or strategies/activities to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard, as applicable. Identify where those changes can be found in the SPSA.

Budget Summary and Consolidation

In this section a school provides a brief summary of the funding allocated to the school through the ConApp and/or other funding sources as well as the total amount of funds for proposed expenditures described in the SPSA. The Budget Summary is required for schools funded through the ConApp. The Consolidation of Funds is required for a school receiving funds allocated through the ConApp and consolidating those funds as part of a schoolwide program.

Budget Summary

A school receiving funds allocated through the ConApp should complete the Budget Summary as follows:

- **Total Funds Provided to the School Through the Consolidated Application:** This amount is the total amount of funding provided to the school through the ConApp for the school year. The school year means the fiscal year for which a SPSA is adopted or updated.
- **Total Funds Budgeted for Strategies to Meet the Goals in the SPSA:** This amount is the total of the proposed expenditures from all sources of funds associated with the strategies/activities reflected in the SPSA. To the extent strategies/activities and/or proposed expenditures are listed in the SPSA under more than one goal, the expenditures should be counted only once.

A school may include additional information or more detail.

Consolidation of Funds

A school receiving funds allocated through the ConApp and consolidating those funds as part of a schoolwide program is required to include a list of state and local programs and other federal programs that the school will consolidate in the schoolwide program. A list of commonly consolidated state and federal programs is provided in Appendix B: Select State and Federal Programs. List the federal funding source(s) and the amount(s) being consolidated in the schoolwide program, then list the state and/or local funding source(s) and the amount(s). Adjust the table as needed.

Appendix A: Plan Requirements for Schools Funded Through the ConApp

Basic Plan Requirements

A school receiving funds allocated through the ConApp is required to develop a SPSA. The content of a SPSA must be aligned with school goals for improving student achievement. School goals must be based upon an analysis of verifiable state data and may include any data voluntarily developed by districts to measure student achievement.

The SSC is required to develop the SPSA, which must address each of the following, as applicable:

1. A description of curricula, instructional strategies and materials responsive to the individual needs and learning styles of each student (described in the Strategies/Activities).
2. A description of instructional and auxiliary services to meet the special needs of non-English-speaking or limited-English-speaking students, including instruction in a language these students understand; educationally disadvantaged students; gifted and talented students; and students with exceptional needs (described in the Strategies/Activities).
3. A description of a staff development program for teachers, other school personnel, paraprofessionals, and volunteers, including those participating in special programs (described in the Strategies/Activities).
4. An identification of the schools' means of evaluating progress toward accomplishing its goals (described in the Expected Annual Measurable Outcomes) and an ongoing evaluation of the educational program of the school (described in the Annual Review and Update).
5. A description of how funds provided to the school through the ConApp will be used to improve the academic performance of all pupils to the level of state performance goals (described in the Proposed Expenditures for Strategies/Activities).
6. The proposed expenditures of funds available to the school through the programs described in EC Section 52851. For purposes of this subdivision, proposed expenditures of funds available to the school must include, but not be limited to, salaries and staff benefits for persons providing services for those programs (described in the Proposed Expenditures for Strategies/Activities).
7. The proposed expenditure of funds available to the school through the federal Improving America's Schools Act of 1994 and its amendments. If the school operates a state-approved schoolwide program in a manner consistent with the expenditure of funds available to the school pursuant to EC Section 52851, employees of the schoolwide program may be deemed funded by a single cost objective.
8. A description of how state and federal law governing programs identified in EC Section 64000 will be implemented, as applicable (described in the Strategies/Activities).
9. A description of any other activities and objectives as established by the SSC (described in the Strategies/Activities).

The SPSA, including proposed expenditures of funds allocated to the school through the ConApp, must be reviewed annually and updated by the SSC.

Authority cited: EC sections 64001(f)-(g) and 52853(a)(1)-(7).

Schoolwide Program Requirements

A school receiving funds allocated through the ConApp and operating a schoolwide program (SWP) must describe how the school will carry out each of the following components:

 - iii. implementation of a schoolwide tiered model to prevent and address problem behavior;
 - iv. professional development and other activities for teachers, paraprofessionals, and other school personnel to improve instruction and use of data; and
 - v. strategies for assisting preschool children in the transition from early childhood education programs to local elementary school programs.
2. A description of how the school will determine if school needs have been met (described in the Expected Annual Measurable Outcomes and the Annual Review and Update).

School Plan for Student Achievement (SPSA) Template

The School Plan for Student Achievement (SPSA) is meant to consolidate all school-level planning efforts into one plan for programs funded through the consolidated application (ConApp), pursuant to the California Education Code (EC) Section 64001 and the Elementary and Secondary Education Act as amended by the Every Student Succeeds Act (ESSA).

The purpose of the SPSA is to increase the overall effectiveness of the school program by crafting a strategic plan that maximizes the resources available to the school while minimizing duplication of effort with the ultimate goal of increasing student achievement.

The School Site Council (SSC) is required to develop and annually review the SPSA, establish an annual budget, and make modifications in the plan to reflect changing needs and priorities, as applicable, pursuant to EC 52853(b) and 52855.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. The SPSA provides schools with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for schools to innovate with their federally-funded programs and align them with the priority goals of the school and the LEA that are being realized under the state's Local Control Funding Formula (LCFF).

LCFF provides schools and LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The SPSA planning process supports continuous cycles of action, reflection, and improvement.

Analysis

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

Prior to school closure each of these actions was implemented. The contributions of the district's TOSAs were noteworthy, as the TOSAs transitioned during the year from supporting teachers with implementation of state standards and academic intervention to helping teachers with distance learning. SIPPS has continued to be a valuable intervention for struggling readers.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

Because NWEA testing did not take place beyond Winter 2020 and no state CAASPP testing occurred in Spring 2020, staff have no norm-referenced measure of student progress in English/language arts over the entirety of the school year. That said, SIPPS assessments show that students participating in the reading intervention program made notable progress to the point of school closure, with many students able to test out of SIPPS when reading screenings were done in September 2020.

There were no significant material differences between proposed and actual expenditures.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

The school will need to respond assertively to the learning loss suffered by many students during the school closure period from mid-March through early June. Reading screenings and SIPPS intervention will need to be launched earlier so students can make desired progress. Teachers also will need to implement the English/language arts curriculum with a focus on acceleration, not remediation. Students need to receive the support and background knowledge they need in order to tackle grade-level standards at a typical pace.

Because NWEA testing did not take place beyond Winter 2020 and no state CAASPP testing occurred in Spring 2020, staff have no norm-referenced measure of student progress in math over the entirety of the school year. Anecdotally, students did make progress with accomplishment of "hinge standards" and math facts. Staff still would like to have a systematic math intervention program that fills a role similar to what SIPPS does for reading intervention; however, the challenges presented by COVID-19 likely will prevent that from happening in 2020-2021.

Analysis

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

All strategies listed in the plan were implemented up to the point of school closure. During the distance learning period of mid-March through the end of the year, the truancy process was put on hold because student participation was not compulsory.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

While overall attendance is strong, the school continues to experience chronic absenteeism at percentages, both overall and with subgroups, that are unacceptable. The reasons for this vary by student, although staff have seen an increase in the percentage of students experiencing emotional/mental health issues that get in the way of regular school attendance. These cases typically involve lots of individual contact between school office staff and administrators and the parents/guardians of the students. And yet these issues continue ... and need to be addressed.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

With school attendance during distance learning returning to compulsory/required status for 2020-2021, staff will need to do even more frequent screenings of attendance/engagement data to see issues of chronic attendance and work to address them. Schools will participate in a successive response to student disengagement starting with the teacher, continuing with involvement by a school team led by the principal, and if necessary continuing with involvement by the district Educational Services Department. The focus will be on problem-solving and addressing barriers to attendance. Resources such as WiFi hot spots, after-hours technology support, and after-hours support from a teacher will be utilized to overcome some of these barriers. The truancy process and School Attendance Review Board will be a last resort.

Analysis

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

All of the activities outlined in the plan were implemented. School use of Parent Square went up dramatically in 2019-2020, as it became the primary platform for the principal, teachers, and office staff to communicate with parents during school closure.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

Parent Square has continued to be a highly effective platform for school-home communication. Its ability to translate posts and text alerts into Spanish has proven extremely helpful for many families. Community liaisons provide indispensable support in translating for, and supporting, many families. The district put together parent education nights on compelling topics, but attendance remains low. Staff would like to see more parents capitalizing on these informative events.

Analysis

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

All of the activities stated here were implemented, although PBIS and most of the cocurricular/extracurricular activities came to a halt during school closure. Schools take pride in the many ways in which students can be involved outside of the classroom.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

PBIS is making an impact at Ralph Dunlap. School stakeholders have appreciated the opportunity to discuss what they want to see in students, come to consensus around common expectations, and articulate and teach those expectations to students. The principal is keeping and analyzing data on Office Discipline Referrals (ODRs). The PBIS in the Classroom series was well received by participating teachers. All of this being stated, suspensions around the district are not decreasing. In 2019-2020 suspensions for vaping and tobacco/cannabis use declined, but suspensions for bullying (including cyberbullying) and damaging property climbed. So schools do need to continue their work on strategies/activities to accomplish the goal of reducing suspensions.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

Activities described in this section will need to be adjusted in 2020-2021 to fit the world of distance learning and blended learning (mix of in-person instruction and distance learning). Schools have made revisions in PBIS expectations to account for what they need from students in distance learning; meanwhile, those expectations will play an important role in retraining students to be on campus when schools are re-opened for blended learning. Schools are putting a greater emphasis on social/emotional learning in response to the stresses students and families are experiencing during the COVID-19 pandemic.

Goal Statement

All students and student groups will demonstrate growth on state and local measures in the area of English Language Arts, with the goal of all students achieving proficiency.

Basis for this Goal

Students need to be equipped with literacy skills to be able to compete in college as well as successfully pursue their chosen career path. All students, particularly our English Learners, Foster Youth and Low Income students, need to have access to the core instructional program and instruction that will meet their needs as individual learners. Today's learner is markedly different from learners of the past, and research has demonstrated there are effective strategies that work. Teachers will identify target skills and vocabulary to be taught each week of the school year and as possible will plan for integration of the skills and vocabulary into all curricular areas.

Goal 3

Subject

Academic Engagement: Chronic Absenteeism

Goal Statement

All students and student groups will demonstrate an increase in daily school attendance and a decrease in chronic absenteeism.

LCAP Goal

Provide a rich and diverse curriculum in a positive and safe atmosphere that addresses the needs of the whole child.

Basis for this Goal

According to the National Center for Education Statistics, attendance is an important factor in student achievement. The primary rationale for high-quality attendance data is the relationship between student attendance and student achievement. Chronic student absence reduces even the best teacher's ability to provide learning opportunities. Students who attend school regularly have been shown to achieve at higher levels than students who do not have regular attendance. Poor attendance has serious implications for later outcomes as well. High school dropouts have been found to exhibit a history of negative behaviors including high levels of absenteeism throughout their childhood at higher rates than high school graduates. These differences in absentee rates were observed as early as kindergarten, and students who eventually dropped out of high school missed significantly more days of school in first grade than their peers who graduated from high school. Any absence, whether excused or not, denies students the opportunity to learn in accordance with the school's instructional program, but students who miss school are sometimes further excluded from learning opportunities as a consequence of chronic absenteeism.

Expected Annual Measurable Outcomes

Metric/Indicator	Baseline	Expected Outcome
Attendance rate	Attendance for all students: 2019-2020: 95%	Attendance rates for all students and each identified subgroup will be improved to 97%.
Chronic absenteeism rate	Chronic absenteeism rates: 2019-2020: All students: 11%	Decrease chronic absenteeism by 2% for "All" students and each subgroup.

Goal 4

Subject

Parent and Family Engagement

Goal Statement

Parents and students will report experiencing positive communication with their child's school at an increased level with the goal of 100% reporting "Good" or "Excellent".

LCAP Goal

Provide a rich and diverse curriculum in a positive and safe atmosphere to address the needs of the whole child.

Basis for this Goal

Relationships are the positive connections between students, adults and peers in the school setting that foster positive social interaction and establish a nurturing environment of trust and support. According to the National Center on Safe Supportive Learning Environments, the relationships formed between students and school staff members are at the heart of school connectedness. Students who perceive their teachers and school administrators as creating a caring, well-structured learning environment in which expectations are high, clear, and fair are more likely to be connected to school. Additionally, parents/guardians need support and responsiveness from their children's schools, especially in a challenging time like the present.

Expected Annual Measurable Outcomes

Metric/Indicator	Baseline	Expected Outcome
Students and parents were surveyed on items pertaining to the caring, responsiveness, and communication they experience at school	<p>October 2020</p> <p>The student survey showed the percentage of students who indicated it was "pretty much true" or "very much true" that there were adults at school who really care about them (87.5%), notice when they are not there (80.5%), listen to them when they have something to say (86.8%), are there for them when they have a problem or concern (86.8%), and believe they will be a success (88.9%).</p> <p>The parent survey showed the percentage of parents who indicated they "agree" or "strongly agree" that school staff communicate with parents about what is happening at the school (90%), teachers communicate with parents about what students are expected to learn (82%), parents feel welcome to be involved in the school (75.6%), there is someone at school to talk to about</p>	Increase % of students and parents/guardians reporting they experience caring relationships with school staff all or most of the time.

Metric/Indicator**Baseline****Expected Outcome**

a problem or concern (80.8%), and school staff take parent concerns seriously (68.6%)

Planned Strategies/Activities**Strategy/Activity 1**

The school will focus on relationships and social/emotional learning. Teachers will emphasize teacher-student relationships at the outset of the 2020-2021 school year. Regular lessons in social/emotional learning will be planned for Monday mornings. Parent-teacher conferences will be moved up so teachers and parents/guardians can touch base earlier in the school year. Goal 5

Subject

Conditions & Climate: Suspension Rate

Goal Statement

All students and student groups will demonstrate a decrease in the rate of suspension from school

LCAP Goal

Provide a rich and diverse curriculum in a positive and safe atmosphere to address the needs of the whole child

Basis for this Goal

The Learning Policy Institute shares that over the past several decades, researchers have noted that the overuse of suspensions and expulsions, particularly for students of color, has contributed significantly to dropout rates and the perpetuation of the "school-to-prison pipeline". Further, students of color and those with disabilities are suspended at a rate that is disproportionate to that of their White and non-disabled peers for comparable behaviors. The other effect of a student missing school due to a suspension is the resulting loss of student learning and affect on student achievement.

Expected Annual Measurable Outcomes

Metric/Indicator	Baseline	Expected Outcome
Suspension/ Expulsion Rate	2019-2020 Suspension 2.2% All Students 0% African American 0% American Indian/Alaska Native 0% Asian 23%% Hispanic/Latino 69% White 0% Two or more races 8% English Learners 77% Socioeconomically Disadvantaged % Foster Youth/ Homeless Youth 31% Special Education 2019-2020 Expulsion Rate 0%	Maintain/decrease current suspension/expulsion rates for students and each subgroup students and for each subgroup.

Planned Strategies/Activities

Strategy/Activity 1

At the outset of the school year during distance learning, teachers will focus on establishing relationships and rapport with students. The distance/blended learning schedule will be structured so teachers have time to be available for students who desire one-on-one support. As possible during distance learning and ultimately blended learning, the school will continue implementation of Positive Behavioral Interventions and Supports (PBIS) in 2020-2021. The school

will recast its rules/expectations to fit a time when students are learning both in person and virtually. The school will continue to utilize positive reinforcers (raffle tickets and classroom drawings) to encourage students to meet the expectations. The school will continue to track Office Discipline Referrals (ODRs) to monitor trends and needs. As possible during distance and blended learning, the school will continue to provide cocurricular and extracurricular activities that build community, teamwork, and leadership skills in students. Activities possible during COVID-19 include Student Council, and the library makerspace.

Stakeholder Involvement

Meaningful involvement of parents, students, and other stakeholders is critical to the development of the SPSA and the budget process. As such, the SPSA should be shared with, and schools should request input from, school site-level advisory groups, as applicable (e.g., English Learner Advisory Councils, student advisory groups, etc.).

Describe the process used to involve advisory committees, parents, students, school faculty and staff, and the community in the development of the SPSA and the annual review and update.

Goals, Strategies, & Proposed Expenditures

In this section a school provides a description of the annual goals to be achieved by the school. This section also includes descriptions of the specific planned strategies/activities a school will take to meet the identified goals, and a description of the expenditures required to implement the specific strategies and activities.

Goal

State the goal. A goal is a broad statement that describes the desired result to which all strategies/activities are directed. A goal answers the question: What is the school seeking to achieve? A school may number the goals using the "Goal #" for ease of reference.

Basis for this Goal

Describe the basis for establishing the goal. The goal should be based upon an analysis of verifiable state data, including state indicator data from the California School Dashboard (Dashboard) and data from the School Accountability Report Card, and may include any data voluntarily developed by districts to measure pupil achievement.

Expected Annual Measurable Outcomes

Identify the metric(s) and/or state indicator(s) that the school will use as a means of evaluating progress toward accomplishing the goal. A school may identify metrics for specific student groups. Include in the baseline column the most recent data associated with the metric or indicator available at the time of adoption of the SPSA. The most recent data associated with a metric or indicator includes data reported in the annual update of the SPSA. In the subsequent Expected Outcome column, identify the progress the school intends to be make in the coming year.

Planned Strategies/Activities

Describe the strategies and activities being provided to meet the described goal. Strategies and activities that are implemented to achieve the identified goal may be grouped together. A school may number the strategy/activity using the "Strategy/Activity #" for ease of reference.

A school receiving funds allocated through the ConApp is required to describe in their strategies and activities how they will address specific state and federal requirements. A list of these requirements may be found in Appendix A: Plan Requirements for Schools Funded Through the ConApp. At a minimum a school receiving funds allocated through the ConApp must address these requirements; however, a school may describe additional strategies/activities as well.

Students to be Served by this Strategy/Activity

Indicate in this box which students will benefit from the strategies/activities by indicating “All Students” or listing one or more specific student group(s) to be served.

Proposed Expenditures for this Strategy/Activity

For each strategy/activity, list and describe the proposed expenditures for the school year to implement these strategies/activities, including where those expenditures can be found in the school’s budget. The school should reference all fund sources for each proposed expenditure and should provide budget references as an object code or an object code description.

Proposed expenditures that are included more than once in a SPSA should be indicated as a duplicated expenditure and include a reference to the goal and strategy/activity where the expenditure first appears in the SPSA.

Annual Review and Update

The planned goals, expected outcomes, planned strategies/activities, and proposed expenditures must be copied verbatim from the previous year’s approved SPSA. Minor typographical errors may be corrected.

Annual Measurable Outcomes

For each goal in the prior year, provide the metric/indicators, the expected outcomes, and the actual outcomes; review the actual outcomes as compared to the expected outcomes identified in the prior year for the goal.

Strategies/Activities

Identify the planned strategies/activities and the proposed expenditures to implement these strategies/activities toward achieving the described goal, then identify the actual strategies/activities implemented to meet the described goal and the estimated actual expenditures to implement the strategies/activities. As applicable, identify any changes to the student groups served.

Analysis

Using actual outcome data, including state indicator data from the Dashboard, analyze whether the planned strategies/activities were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the strategies/activities to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process.
- Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.
- Explain any material differences between Proposed Expenditures and Estimated Actual Expenditures. Minor variances in expenditures or a dollar-for-dollar accounting is not required.
- Describe any changes that will be made to the goal, expected annual measurable outcomes, metrics/indicators, or strategies/activities to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard, as applicable. Identify where those changes can be found in the SPSA.

Budget Summary and Consolidation

In this section a school provides a brief summary of the funding allocated to the school through the ConApp and/or other funding sources as well as the total amount of funds for proposed expenditures described in the SPSA. The Budget Summary is required for schools funded through the ConApp. The Consolidation of Funds is required for a school receiving funds allocated through the ConApp and consolidating those funds as part of a schoolwide program.

Budget Summary

A school receiving funds allocated through the ConApp should complete the Budget Summary as follows:

- **Total Funds Provided to the School Through the Consolidated Application:** This amount is the total amount of funding provided to the school through the ConApp for the school year. The school year means the fiscal year for which a SPSA is adopted or updated.
- **Total Funds Budgeted for Strategies to Meet the Goals in the SPSA:** This amount is the total of the proposed expenditures from all sources of funds associated with the strategies/activities reflected in the SPSA. To the extent strategies/activities and/or proposed expenditures are listed in the SPSA under more than one goal, the expenditures should be counted only once.

A school may include additional information or more detail.

Consolidation of Funds

A school receiving funds allocated through the ConApp and consolidating those funds as part of a schoolwide program is required to include a list of state and local programs and other federal programs that the school will consolidate in the schoolwide program. A list of commonly consolidated state and federal programs is provided in Appendix B: Select State and Federal Programs. List the federal funding source(s) and the amount(s) being consolidated in the schoolwide program, then list the state and/or local funding source(s) and the amount(s). Adjust the table as needed.

Appendix A: Plan Requirements for Schools Funded Through the ConApp

Basic Plan Requirements

A school receiving funds allocated through the ConApp is required to develop a SPSA. The content of a SPSA must be aligned with school goals for improving student achievement. School goals must be based upon an analysis of verifiable state data and may include any data voluntarily developed by districts to measure student achievement.

The SSC is required to develop the SPSA, which must address each of the following, as applicable:

1. A description of curricula, instructional strategies and materials responsive to the individual needs and learning styles of each student (described in the Strategies/Activities).
2. A description of instructional and auxiliary services to meet the special needs of non-English-speaking or limited-English-speaking students, including instruction in a language these students understand; educationally disadvantaged students; gifted and talented students; and students with exceptional needs (described in the Strategies/Activities).
3. A description of a staff development program for teachers, other school personnel, paraprofessionals, and volunteers, including those participating in special programs (described in the Strategies/Activities).
4. An identification of the schools' means of evaluating progress toward accomplishing its goals (described in the Expected Annual Measurable Outcomes) and an ongoing evaluation of the educational program of the school (described in the Annual Review and Update).
5. A description of how funds provided to the school through the ConApp will be used to improve the academic performance of all pupils to the level of state performance goals (described in the Proposed Expenditures for Strategies/Activities).
6. The proposed expenditures of funds available to the school through the programs described in EC Section 52851. For purposes of this subdivision, proposed expenditures of funds available to the school must include, but not be limited to, salaries and staff benefits for persons providing services for those programs (described in the Proposed Expenditures for Strategies/Activities).
7. The proposed expenditure of funds available to the school through the federal Improving America's Schools Act of 1994 and its amendments. If the school operates a state-approved schoolwide program in a manner consistent with the expenditure of funds available to the school pursuant to EC Section 52851, employees of the schoolwide program may be deemed funded by a single cost objective.
8. A description of how state and federal law governing programs identified in EC Section 64000 will be implemented, as applicable (described in the Strategies/Activities).
9. A description of any other activities and objectives as established by the SSC (described in the Strategies/Activities).

The SPSA, including proposed expenditures of funds allocated to the school through the ConApp, must be reviewed annually and updated by the SSC.

Authority cited: EC sections 64001(f)-(g) and 52853(a)(1)-(7).

Schoolwide Program Requirements

A school receiving funds allocated through the ConApp and operating a schoolwide program (SWP) must describe how the school will carry out each of the following components:

1. A description of the strategies that the school will be implementing to address school needs, including a description of how such strategies will

 - ii. preparation for and awareness of opportunities for postsecondary education and the workforce;
 - iii. implementation of a schoolwide tiered model to prevent and address problem behavior;
 - iv. professional development and other activities for teachers, paraprofessionals, and other school personnel to improve instruction and use of data; and
 - v. strategies for assisting preschool children in the transition from early childhood education programs to local elementary school programs.
2. A description of how the school will determine if school needs have been met (described in the Expected Annual Measurable Outcomes and the Annual Review and Update).

School Plan for Student Achievement (SPSA) Template

The School Plan for Student Achievement (SPSA) is meant to consolidate all school-level planning efforts into one plan for programs funded through the consolidated application (ConApp), pursuant to the California Education Code (EC) Section 64001 and the Elementary and Secondary Education Act as amended by the Every Student Succeeds Act (ESSA).

The purpose of the SPSA is to increase the overall effectiveness of the school program by crafting a strategic plan that maximizes the resources available to the school while minimizing duplication of effort with the ultimate goal of increasing student achievement.

The School Site Council (SSC) is required to develop and annually review the SPSA, establish an annual budget, and make modifications in the plan to reflect changing needs and priorities, as applicable, pursuant to EC 52853(b) and 52855.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. The SPSA provides schools with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for schools to innovate with their federally-funded programs and align them with the priority goals of the school and the LEA that are being realized under the state's Local Control Funding Formula (LCFF).

LCFF provides schools and LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The SPSA planning process supports continuous cycles of action, reflection, and improvement.

Orcutt Junior High School is located in the northern region of Santa Maria and serves students in grades seven and eight following a traditional calendar. For the 2020-2021 school year, 482 students are enrolled, including 14.9% in Special Education, 9.8% English Learners, and 27.4% socioeconomically disadvantaged.

The culture of Orcutt Junior High School reflects a commitment that all students can learn and encourages all students to be academically successful. Our classes are heterogeneously grouped and raising the level of student achievement defines our most important effort. In each academic department, students know what the state mandated content standards are because they are posted in the classroom, listed in their textbooks or kept in their notebooks. Underperforming students are identified early in the school year and interventions like reading, or math support classes are established. Students are also involved in an Extended Learning Opportunity intervention block that is designed to provide the extra help in ELA and math needed to guarantee academic success in high school and college. In other academic areas, our Local Control and Accountability (LCFF) funds have been used extensively to provide resource materials and conference opportunities for teachers to meet the needs of their students.

Of the 25 full time certificated teachers on campus, 4 work solely with resource, SDC, and/or other special education students. The professional learning community unites administrators and school staff in their commitment to student learning. They share a vision, work and learn collaboratively, visit and review other classrooms, analyze test results, and participate in decision making. The benefits to the staff and students include a reduced isolation of teachers, better informed and committed teachers, and academic gains for students. Three staff development days, and weekly late start Wednesdays allow teachers to collaborate in both subject and grade level. In these meetings departments determine key standards, collaborate lesson pacing, develop common assessments, and analyze student data from these common assessments. As a school, our departments work closely to develop curriculum that is meeting the

needs of all students. Many teachers are available during lunch, as well as before and after school, to assist students. Academic interventions include reading and grade level math support as well as targeted, intensive intervention during our weekly intervention block (ELO) once a week for students who did not meet essential learning standards as identified by teachers. Teachers have attended technology and subject specific conferences to stretch their abilities and add to their classroom interactions with students and parents. The OJHS staff is constantly looking for ways to assist students and intervene early to help students perform at the best of their ability. All teachers on campus open their classrooms before school, after school and at lunch to assist all students. In addition to statewide testing, students at OJHS are assessed through NWEA two times per year. Students are given assessments in language, reading and mathematics. NWEA assessment data gives vital information to teachers in order to facilitate increased student learning. The CAASSP is another assessment used to determine student learning.

The mission of the Orcutt Union School District is to ensure the educational success of all students by maintaining high expectations, a safe learning environment, a commitment to excellence, and comprehensive programs which empower children to reach their fullest potential as responsible and productive citizens in a continuously changing world.

Stakeholder Involvement

How, when, and with whom did the school consult as part of the planning process for this SPSA/Annual Review and Update?

Involvement Process for the SPSA and Annual Review and Update

The SPSA and Annual Review and Update were discussed at School Leadership Team Meetings on the following dates:

November 2, 2020

Discussions included a thorough review of school data using the California Dashboard (academic performance, academic engagement, conditions and climate) and additional district-wide and school-wide data, an analysis of current school goals, development of future school goals, and past and future revenues and expenditures.

Additional input was gathered from teachers and school staff, parents, students, and the community at additional meetings held on the following dates:

November 9, 2020: Met with School Staff at a regularly scheduled staff meeting to review SPSA plan and relevant data.

November 10, 2020: Met with PTSA to share school site goals and proposed SPSA.

November 2020: Met with ELAC to review data and the draft SPSA to gather feedback on proposed goals/expenditures.

Conclusions based on this data:

1. Overall achievement on the CAASPP ELA test increased by approximately 4%. OJHS currently has a school-wide focus on close reading, annotating text, and using sentence frames to address needs in the area of ELA. These focus areas are also imperative in supporting our EL subgroup.
2. In comparing like students, we decreased slightly in our scores in writing. By continuing to emphasize academic vocabulary and sentence frames, OJHS should be able to increase in the areas of writing by Spring of 2019.
3. OJHS increased by over 5% in reading in 7th grade and increased by 2% in reading in 8th grade. In addition to our school-wide focus on close reading, particularly annotating text and citing sources, additional support for this area will be through document based questioning strategies in all history classes.

Conclusions based on this data:

1. Overall, OJHS either decreased or stayed the same with mathematics scores.
2. Communicating Reasoning continues to be an area of needed growth. This is the area where students are to demonstrate an ability to support mathematical conclusions. This year, OJHS has implemented a school-wide focus on intervention by having four 30 minute blocks for math intervention. This emphasis along with document based questioning strategies, and full, school-wide implementation of CPM curriculum should improve performance in this area.
3. OJHS eighth graders did increase in the area of Problem Solving and Modeling/Data Analysis.

Analysis

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

Prior to school closure each of these actions was implemented. The contributions of the district's TOSAs were noteworthy, as the TOSAs transitioned during the year from supporting teachers with implementation of state standards and academic intervention to helping teachers with distance learning.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

Because NWEA testing did not take place beyond Winter 2020 and no state CAASPP testing occurred in Spring 2020, staff have no norm-referenced measure of student progress in English/language arts over the entirety of the school year.

Explain any material differences between the Proposed Expenditures and Estimated Actual Expenditures.

There is a discrepancy between the money allotted for software licenses and actual expenditures for licenses because OJHS did not purchase Reading Plus. Educational Services was able to secure licenses for students who needed it at no cost to the site. There is a discrepancy between money allocated for conferences and workshops and actual expenditures. This is primarily due to most conferences that occur during the spring were cancelled due to COVID 19 (most OJHS teachers attend spring conferences). There also is a discrepancy between the funds allocated for computer access and tutoring and actual expenditures due to little to no attendance as well as school closures.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

The school will need to respond assertively to the learning loss suffered by many students during the school closure period from mid-March through early June. Reading screenings and Acadience intervention will need to be launched earlier so students can make desired progress. Teachers also will need to implement the English/language arts curriculum with a focus on acceleration, not remediation. Students need to receive the support and background knowledge they need in order to tackle grade-level standards at a typical pace.

Analysis

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

All of the activities stated here were implemented, although PBIS and most of the co-curricular/extracurricular activities came to a halt during school closure. Schools take pride in the many ways in which students can be involved outside of the classroom.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

PBIS is making an impact on schools. School stakeholders have appreciated the opportunity to discuss what they want to see in students, come to consensus around common expectations, and articulate and teach those expectations to students. Schools are keeping and analyzing data on Office Discipline Referrals (ODRs). The PBIS in the Classroom series was well received by participating teachers. All of this being stated, suspensions districtwide are not decreasing. In 2019-2020 suspensions for vaping and tobacco/cannabis use declined, but suspensions for bullying (including cyberbullying) and damaging property climbed. So schools do need to continue their work on strategies/activities to accomplish the goal of reducing suspensions.

Explain any material differences between the Proposed Expenditures and Estimated Actual Expenditures.

There is not a great discrepancy between estimated expenditures for incentives and the actual expenditures. Actual expenditures for enrichment were covered by our PTSA and estimated expenditures for awards and certificates wasn't spent as we had supplies from the previous school year.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

Activities described in this section will need to be adjusted in 2020-2021 to fit the world of distance learning and blended learning (mix of in-person instruction and distance learning). Schools have made revisions in PBIS expectations to account for what they need from students in distance learning; meanwhile, those expectations will play an important role in retraining students to be on campus when schools are re-opened for blended learning. Schools are putting a greater emphasis on social/emotional learning in response to the stresses students and families are experiencing during the COVID-19 pandemic. Lessons in digital citizenship may help with cyberbullying.

Analysis

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

Until school closure in mid-March these actions were implemented as planned. Orcutt Junior High School continued to offer support classes and specialized instruction to identified students in association with their Extended Learning Opportunity (ELO) program.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

Because NWEA testing did not take place beyond Winter 2020 and no state CAASPP testing occurred in Spring 2020, staff have no norm-referenced measure of student progress in math over the entirety of the school year. Staff still would like to have a systematic math intervention program that fills a role similar to what Acadience and Reading Plus does for reading intervention; however, the challenges presented by COVID-19 likely will prevent that from happening in 2020-2021.

Explain any material differences between the Proposed Expenditures and Estimated Actual Expenditures.

The most significant difference in Proposed Expenditures and Estimated Actual Expenditures is with technology. When schools closed, all spending was suspended; therefore, the money allocated for upgrading technology was revoked.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

The school will need to respond assertively to the learning loss suffered by many students during the school closure period from mid-March through early June. As possible, math screenings and NWEA math testing will need to be done earlier in the school year so teachers can assess where students are. Teachers also will need to implement the math curriculum with a focus on acceleration, not remediation. Students need to receive the support and background knowledge they need in order to accomplish grade-level standards through the school year at a typical pace.

All students and student groups will demonstrate an increase in daily school attendance and decrease in chronic absenteeism.

Annual Measurable Outcomes

Implement a positive school attendance program including student and parent education on the importance of daily school attendance, build a culture at the school that celebrates school attendance and recognize positive school attendance through incentives and awards.	The PBIS Rewards program was implemented at OJHS to encourage positive behavior supports with the intention of creating a more positive environment on campus. Attendance Awards would normally be acknowledge at Awards Night on campus. This year due to school closures, students were recognized virtually. Analysis

Describe the overall implementation of the strategies/activities to achieve the articulated goal.
All strategies listed in the plan were implemented up to the point of school closure. During the distance learning period of mid-March through the end of the year, the truancy process was put on hold because student participation was not compulsory.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

While overall attendance is strong, the school continues to experience chronic absenteeism at percentages, both overall and with subgroups, that are unacceptable. The reasons for this vary by student, although staff have seen an increase in the percentage of students experiencing emotional/mental health issues that get in the way of regular school attendance. These cases typically involve lots of individual contact between school office staff and administrators and the parents/guardians of the students. And yet these issues continue ... and need to be addressed.

Explain any material differences between the Proposed Expenditures and Estimated Actual Expenditures.

The difference between proposed expenditures and estimated actual expenditures is largely due to the school closures that did not allow for students the entire year to earn rewards to redeem for more "expensive" items in the OJHS PBIS store.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

With school attendance during distance learning returning to compulsory/required status for 2020-2021, staff will need to do even more frequent screenings of attendance/engagement data to see issues of chronic attendance and work to address them. Schools will participate in a successive response to student disengagement starting with the teacher, continuing with involvement by a school team led by the principal, and if necessary continuing with involvement by the district Educational Services Department. The focus will be on problem-solving and addressing barriers to attendance. Resources such as WiFi hot spots, after-hours technology support, and after-hours support from a teacher will be utilized to overcome some of these barriers. The truancy process and School Attendance Review Board will be a last resort.

Analysis

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

All of the activities outlined in the plan were implemented School use of Parent Square went up dramatically in 2019-2020, as it became the primary platform for the principal, teachers, and office staff to communicate with parents during school closure.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

Parent Square has continued to be a highly effective platform for school-home communication. Its ability to translate posts and text alerts into Spanish has proven extremely helpful for many families. Community liaisons provide indispensable support in translating for, and supporting, many families. The district put together parent education nights on compelling topics, but attendance remains low. Staff would like to see more parents capitalizing on these informative events.

Explain any material differences between the Proposed Expenditures and Estimated Actual Expenditures.

There were not any material differences that had any impact on site funds.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

As mentioned earlier, participation in parent education initiatives needs to improve. The district will look into using virtual platforms such as Zoom for parent education nights in 2020-2021.

Goals, Strategies, & Proposed Expenditures

Goal 1

Subject

Academic Performance: English Language Arts

Goal Statement

All students and student groups will demonstrate growth on state and local measures in the area of English/Language Arts, with the goal of all students achieving proficiency.

LCAP Goal

Improving student achievement in language arts by providing and supporting engaging and high quality instruction which promotes active learning and maximizes student achievement in the area of language arts.

Basis for this Goal

Students need to be equipped with literacy skills to be able to participate and compete in college as well as successfully pursue their chosen career path. All students, particularly our English Learners, foster youth, and low-income students, need to have access to the core instructional program and instruction that will meet their needs as individual learners. Today's learner is markedly different from learners of the past, and research has highlighted strategies and practices that work. Teachers and staff need to have the training, support, and time to implement shifts in instructional practices in order to best support the needs of students. Areas for specific focus include E/LA instruction, particularly for at-risk youth, and English Language Development (ELD) instruction for English Learners.

Expected Annual Measurable Outcomes

Metric/Indicator	Baseline	Expected Outcome
CAASPP – ELA % Students met/exceeded standard	2016 CAASPP Results % Met or Exceeded Standards 54.5% All Students 13.51% EL Students 14.81% Special Education Students 38.95% SES 43.55% Hispanic Students 59.92% White Students	Increase student performance for all students by 5 percentage points each year in the area of ELA as measured by the CAASPP and reported on the California Dashboard

Planned Strategies/Activities

Strategy/Activity 1

The English Department will consistently look at data related to this goal and use the data to drive instruction and intervention. Teachers will meet weekly in Professional Learning Communities (PLCs) with a dedicated time to discuss student learning. During this time, teachers will analyze data, discuss targeted instruction, unpack essential standards, design common formative assessments, complete PDSAs, and plan collaboratively for instruction.

Goal 2

Subject

Conditions and Climate: Suspension/Expulsion

Goal Statement

All students and student groups will demonstrate a decrease in the rate of suspension from school

LCAP Goal

Provide inspiring, creative, healthy and safe environments that nurture imagination and compassion; fostering engaged, supported and challenged students.

Basis for this Goal

The Learning Policy Institute shares that over the past several decades, researchers have noted that the overuse of suspensions and expulsions, particularly for students of color, has contributed significantly to dropout rates and the perpetuation of the "school-to-prison pipeline". Further, students of color and those with disabilities are suspended at a rate that is disproportionate to that of their White and non-disabled peers for comparable behaviors. The other effect of a student missing school due to a suspension is the resulting loss of student learning and affect on student achievement.

Expected Annual Measurable Outcomes

Metric/Indicator	Baseline	Expected Outcome
Suspension/Expulsion Rate	Suspension/expulsion rates for 2018-19: 7% Suspension Rate 14.6% - English Learners 1.7% - Students with Disabilities 0% - Two or more races 9.6% - White 5.3% Hispanic/Latino 10.7% Socioeconomically Disadvantaged	Maintain/decrease the current suspension/expulsion rate for all students and each student group and for each student group.

Planned Strategies/Activities

Strategy/Activity 1

At the outset of the school year during distance learning, teachers will focus on establishing relationships and rapport with students. The distance/blended learning schedule will be structured so teachers have time to be available for students who desire one-on-one support.

As possible during distance learning and ultimately blended learning, the school will continue implementation of Positive Behavioral Interventions and Supports (PBIS) in 2020-2021. The school will recast its rules/expectations to fit a time when students are learning both in person and virtually. The school will continue to utilize positive reinforcers (raffle tickets and classroom drawings) to encourage students to meet the expectations. The school will continue to track Office Discipline Referrals (ODRs) to monitor trends and needs.

As possible during distance and blended learning, the school will continue to provide cocurricular and extracurricular activities that build community, teamwork, and leadership skills in students. Activities possible during COVID-19 include Student Council/ASB, the library makerspace, and the Yearbook Class.

Goals, Strategies, & Proposed Expenditures

Goal 4

Subject

Academic Engagement: Chronic Absenteeism

Goal Statement

All students and student groups will demonstrate an increase in daily school attendance and decrease in chronic absenteeism

LCAP Goal

Provide inspiring, creative, healthy and safe environments that nurture imagination and compassion; fostering engaged, supported, and challenged students.

Basis for this Goal

According to the National Center for Education Statistics, attendance is an important factor in student achievement. The primary rationale for high-quality attendance data is the relationship between student attendance and student achievement. Chronic student absenteeism reduces even the best teacher's ability to provide learning opportunities. Students who attend school regularly have been shown to achieve at higher levels than students who do not have regular attendance. Poor attendance has serious implications for later outcomes as well. High school dropouts have been found to exhibit a history of negative behaviors including high levels of absenteeism throughout their childhood at higher rates than high school graduates. These differences in absentee rates were observed as early as kindergarten, and students who eventually dropped out of high school missed significantly more days of school in first grade than their peers who graduated from high school. Any absence, whether excused or not, denies students the opportunity to learn in accordance with the school's instructional program, but students who miss school are sometimes further excluded from learning opportunities as a consequence of chronic absenteeism.

Expected Annual Measurable Outcomes

Metric/Indicator	Baseline	Expected Outcome
Attendance Rate	Student attendance rate for 2018-2019 was at 96%.	Maintain or increase attendance rate to 98% for all students and each subgroup.
Chronic Absenteeism Rate	Chronic Absenteeism Rate : 2018-19 8.2% "All" Students 7% English Learner 13.4% Low SES 19% Students with Disabilities 6.9% White 11.2% Hispanic	Decrease Chronic Absenteeism by 2% for all students and each subgroup.

Supportive Learning Environments

Goal Statement

Students and parents/guardians will experience caring relationships with teachers and school staff, with the goal of 100% reporting they experience caring relationships with school staff all or most of the time.

LCAP Goal

Provide inspiring, creative, healthy and safe environments that nurture imagination and compassion; fostering engaged, supported and challenged students.

Basis for this Goal

Relationships are the positive connections between students, adults and peers in the school setting that foster positive social interaction and establish a nurturing environment of trust and support. According to the National Center on Safe Supportive Learning Environments, the relationships formed between students and school staff members are at the heart of school connectedness. Students who perceive their teachers and school administrators as creating a caring, well-structured learning environment in which expectations are high, clear, and fair are more likely to be connected to school. Additionally, parents/guardians need support and responsiveness from their children's schools, especially in a challenging time like the present.

Expected Annual Measurable Outcomes

Metric/Indicator	Baseline	Expected Outcome

Stakeholder Involvement

Meaningful involvement of parents, students, and other stakeholders is critical to the development of the SPSA and the budget process. As such, the SPSA should be shared with, and schools should request input from, school site-level advisory groups, as applicable (e.g., English Learner Advisory Councils, student advisory groups, etc.).

Describe the process used to involve advisory committees, parents, students, school faculty and staff, and the community in the development of the SPSA and the annual review and update.

Goals, Strategies, & Proposed Expenditures

In this section a school provides a description of the annual goals to be achieved by the school. This section also includes descriptions of the specific planned strategies/activities a school will take to meet the identified goals, and a description of the expenditures required to implement the specific strategies and activities.

Goal

State the goal. A goal is a broad statement that describes the desired result to which all strategies/activities are directed. A goal answers the question: What is the school seeking to achieve? A school may number the goals using the "Goal #" for ease of reference.

Basis for this Goal

Describe the basis for establishing the goal. The goal should be based upon an analysis of verifiable state data, including state indicator data from the California School Dashboard (Dashboard) and data from the School Accountability Report Card, and may include any data voluntarily developed by districts to measure pupil achievement.

Expected Annual Measurable Outcomes

Identify the metric(s) and/or state indicator(s) that the school will use as a means of evaluating progress toward accomplishing the goal. A school may identify metrics for specific student groups. Include in the baseline column the most recent data associated with the metric or indicator available at the time of adoption of the SPSA. The most recent data associated with a metric or indicator includes data reported in the annual update of the SPSA. In the subsequent Expected Outcome column, identify the progress the school intends to be make in the coming year.

Planned Strategies/Activities

Describe the strategies and activities being provided to meet the described goal. Strategies and activities that are implemented to achieve the identified goal may be grouped together. A school may number the strategy/activity using the "Strategy/Activity #" for ease of reference.

A school receiving funds allocated through the ConApp is required to describe in their strategies and activities how they will address specific state and federal requirements. A list of these requirements may be found in Appendix A: Plan Requirements for Schools Funded Through the ConApp. At a minimum a school receiving funds allocated through the ConApp must address these requirements; however, a school may describe additional strategies/activities as well.

Students to be Served by this Strategy/Activity

Indicate in this box which students will benefit from the strategies/activities by indicating “All Students” or listing one or more specific student group(s) to be served.

Proposed Expenditures for this Strategy/Activity

For each strategy/activity, list and describe the proposed expenditures for the school year to implement these strategies/activities, including where those expenditures can be found in the school’s budget. The school should reference all fund sources for each proposed expenditure and should provide budget references as an object code or an object code description.

Proposed expenditures that are included more than once in a SPSA should be indicated as a duplicated expenditure and include a reference to the goal and strategy/activity where the expenditure first appears in the SPSA.

Annual Review and Update

The planned goals, expected outcomes, planned strategies/activities, and proposed expenditures must be copied verbatim from the previous year’s approved SPSA. Minor typographical errors may be corrected.

Annual Measurable Outcomes

For each goal in the prior year, provide the metric/indicators, the expected outcomes, and the actual outcomes; review the actual outcomes as compared to the expected outcomes identified in the prior year for the goal.

Strategies/Activities

Identify the planned strategies/activities and the proposed expenditures to implement these strategies/activities toward achieving the described goal, then identify the actual strategies/activities implemented to meet the described goal and the estimated actual expenditures to implement the strategies/activities. As applicable, identify any changes to the student groups served.

Analysis

Using actual outcome data, including state indicator data from the Dashboard, analyze whether the planned strategies/activities were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the strategies/activities to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process.
- Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.
- Explain any material differences between Proposed Expenditures and Estimated Actual Expenditures. Minor variances in expenditures or a dollar-for-dollar accounting is not required.
- Describe any changes that will be made to the goal, expected annual measurable outcomes, metrics/indicators, or strategies/activities to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard, as applicable. Identify where those changes can be found in the SPSA.

Budget Summary and Consolidation

In this section a school provides a brief summary of the funding allocated to the school through the ConApp and/or other funding sources as well as the total amount of funds for proposed expenditures described in the SPSA. The Budget Summary is required for schools funded through the ConApp. The Consolidation of Funds is required for a school receiving funds allocated through the ConApp and consolidating those funds as part of a schoolwide program.

Budget Summary

A school receiving funds allocated through the ConApp should complete the Budget Summary as follows:

- **Total Funds Provided to the School Through the Consolidated Application:** This amount is the total amount of funding provided to the school through the ConApp for the school year. The school year means the fiscal year for which a SPSA is adopted or updated.
- **Total Funds Budgeted for Strategies to Meet the Goals in the SPSA:** This amount is the total of the proposed expenditures from all sources of funds associated with the strategies/activities reflected in the SPSA. To the extent strategies/activities and/or proposed expenditures are listed in the SPSA under more than one goal, the expenditures should be counted only once.

A school may include additional information or more detail.

Consolidation of Funds

A school receiving funds allocated through the ConApp and consolidating those funds as part of a schoolwide program is required to include a list of state and local programs and other federal programs that the school will consolidate in the schoolwide program. A list of commonly consolidated state and federal programs is provided in Appendix B: Select State and Federal Programs. List the federal funding source(s) and the amount(s) being consolidated in the schoolwide program, then list the state and/or local funding source(s) and the amount(s). Adjust the table as needed.

Appendix A: Plan Requirements for Schools Funded Through the ConApp

Basic Plan Requirements

A school receiving funds allocated through the ConApp is required to develop a SPSA. The content of a SPSA must be aligned with school goals for improving student achievement. School goals must be based upon an analysis of verifiable state data and may include any data voluntarily developed by districts to measure student achievement.

The SSC is required to develop the SPSA, which must address each of the following, as applicable:

1. A description of curricula, instructional strategies and materials responsive to the individual needs and learning styles of each student (described in the Strategies/Activities).
2. A description of instructional and auxiliary services to meet the special needs of non-English-speaking or limited-English-speaking students, including instruction in a language these students understand; educationally disadvantaged students; gifted and talented students; and students with exceptional needs (described in the Strategies/Activities).
3. A description of a staff development program for teachers, other school personnel, paraprofessionals, and volunteers, including those participating in special programs (described in the Strategies/Activities).
4. An identification of the schools' means of evaluating progress toward accomplishing its goals (described in the Expected Annual Measurable Outcomes) and an ongoing evaluation of the educational program of the school (described in the Annual Review and Update).
5. A description of how funds provided to the school through the ConApp will be used to improve the academic performance of all pupils to the level of state performance goals (described in the Proposed Expenditures for Strategies/Activities).
6. The proposed expenditures of funds available to the school through the programs described in EC Section 52851. For purposes of this subdivision, proposed expenditures of funds available to the school must include, but not be limited to, salaries and staff benefits for persons providing services for those programs (described in the Proposed Expenditures for Strategies/Activities).
7. The proposed expenditure of funds available to the school through the federal Improving America's Schools Act of 1994 and its amendments. If the school operates a state-approved schoolwide program in a manner consistent with the expenditure of funds available to the school pursuant to EC Section 52851, employees of the schoolwide program may be deemed funded by a single cost objective.
8. A description of how state and federal law governing programs identified in EC Section 64000 will be implemented, as applicable (described in the Strategies/Activities).
9. A description of any other activities and objectives as established by the SSC (described in the Strategies/Activities).

The SPSA, including proposed expenditures of funds allocated to the school through the ConApp, must be reviewed annually and updated by the SSC.

Authority cited: EC sections 64001(f)-(g) and 52853(a)(1)-(7).

Schoolwide Program Requirements

A school receiving funds allocated through the ConApp and operating a schoolwide program (SWP) must describe how the school will carry out each of the following components:

1. A description of the strategies that the school will be implementing to address school needs, including a description of how such strategies will
 - a. provide opportunities for all students, including socioeconomically disadvantaged students, students from major racial and ethnic groups, students with disabilities, and English learners, to meet the challenging state academic standards.
 - b. use effective methods and instructional strategies based on scientifically based research that
 - i. strengthen the core academic program in the school;
 - ii. provide an enriched and accelerated curriculum;
 - iii. increase the amount and quality of learning time;
 - iv. include strategies for meeting the educational needs of historically underserved populations;
 - v. help provide an enriched and accelerated curriculum; and
 - vi. are consistent with, and are designed to implement, state and local improvement plans, if any.
 - c. address the needs of all students in the school, but particularly the needs of those at risk of not meeting the challenging state academic standards, through activities which may include the following:
 - i. strategies to improve students' skills outside the academic subject areas;
 - ii. preparation for and awareness of opportunities for postsecondary education and the workforce;
 - iii. implementation of a schoolwide tiered model to prevent and address problem behavior;
 - iv. professional development and other activities for teachers, paraprofessionals, and other school personnel to improve instruction and use of data; and
 - v. strategies for assisting preschool children in the transition from early childhood education programs to local elementary school programs.
2. A description of how the school will determine if school needs have been met (described in the Expected Annual Measurable Outcomes and the Annual Review and Update).
3. A description of how the school will ensure instruction by highly qualified teachers and provide ongoing professional development, including
 - a. strategies to attract highly qualified teachers;
 - b. providing high-quality and ongoing professional development that is aligned with the state's academic standards for teachers, principals, paraprofessionals and, if appropriate, pupil services personnel, parents, and other staff, to enable all students in the school to meet the state's academic standards;
 - c. the devotion of sufficient resources to effectively carry out professional development activities; and
 - d. the inclusion of teachers in professional development activities regarding the use of academic assessments to enable them to provide information on, and to improve, the achievement of individual students and the overall instructional program.
4. A description of how the school will ensure parental involvement in the planning, review, and improvement of the schoolwide program plan (described in Stakeholder Involvement and/or Strategies/Activities).
5. A description of the activities the school will include to ensure that students who experience difficulty attaining proficient or advanced levels of academic achievement standards will be provided with effective, timely additional support, including measures to
 - a. Ensure that those students' difficulties are identified on a timely basis; and
 - b. Provide sufficient information on which to base effective assistance to those students.
6. For an elementary school, a description of how the school will assist preschool students in the successful transition from early childhood programs to the school.
7. A description of how the school will use resources to carry out these components (described in the Proposed Expenditures for Strategies/Activities).

School Plan for Student Achievement (SPSA) Template

The School Plan for Student Achievement (SPSA) is meant to consolidate all school-level planning efforts into one plan for programs funded through the consolidated application (ConApp), pursuant to the California Education Code (EC) Section 64001 and the Elementary and Secondary Education Act as amended by the Every Student Succeeds Act (ESSA).

The purpose of the SPSA is to increase the overall effectiveness of the school program by crafting a strategic plan that maximizes the resources available to the school while minimizing duplication of effort with the ultimate goal of increasing student achievement.

The School Site Council (SSC) is required to develop and annually review the SPSA, establish an annual budget, and make modifications in the plan to reflect changing needs and priorities, as applicable, pursuant to EC 52853(b) and 52855.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. The SPSA provides schools with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for schools to innovate with their federally-funded programs and align them with the priority goals of the school and the LEA that are being realized under the state's Local Control Funding Formula (LCFF).

LCFF provides schools and LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The SPSA planning process supports continuous cycles of action, reflection, and improvement.

All teachers will be supported in implementing and teaching the new California State Content and Performance Standards, including the integration of technology to ensure all students have access to the curriculum and technology necessary to be successful, through the support of Teachers on Special Assignment (TOSA)/Instructional Coach. The TOSA/Instructional Coach will support school sites with the implementation of MTSS, targeted intervention, and best practices in effective instructional strategies for Tier 1 and 2. The TOSA/Instructional Coach will provide support for identification of and training in effective, research-based interventions for at-risk students, especially English learners, foster youth, low-income students.	TOSAs continued to play an integral role in the development of fellow teachers and in the implementation of academic interventions. In math, TOSAs worked with district consultant Michele Douglass to help teachers be aware of what Douglass calls "hinge standards." These are essential skills and conceptual understandings that underpin math proficiency from grade level to grade level. Identified students will receive targeted support through on-site interventions provided by the classroom teacher, hourly intervention teachers and the grade level team.	PLC teams tracked student math progress and identified students for extra support. Math intervention took the form of reteaching and extra practice with math facts. Analysis

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

Until school closure in mid-March these actions were implemented as planned. At elementary schools identified students participated in classroom math interventions developed by PLC teams.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

Because NWEA testing did not take place beyond Winter 2020 and no state CAASPP testing occurred in Spring 2020, staff have no norm-referenced measure of student progress in math over the entirety of the school year. Anecdotally, students did make progress with accomplishment of "hinge standards" and math facts. Staff still would like to have a systematic math intervention program that fills a role similar to what SIPPS does for reading intervention; however, the challenges presented by COVID-19 likely will prevent that from happening in 2020-2021.

Explain any material differences between the Proposed Expenditures and Estimated Actual Expenditures.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

The school will need to respond assertively to the learning loss suffered by many students during the school closure period from mid-March through early June. As possible, math screenings and NWEA math testing will need to be done earlier in the school year so teachers can assess where students are. Teachers also will need to implement the math curriculum with a focus on acceleration, not remediation. Students need to receive the support and background knowledge they need in order to accomplish grade-level standards through the school year at a typical pace.

Analysis

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

Prior to school closure each of these actions was implemented. The contributions of the district's TOSAs were noteworthy, as the TOSAs transitioned during the year from supporting teachers with implementation of state standards and academic intervention to helping teachers with distance learning. SIPPS has continued to be a valuable intervention for struggling readers.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

Because NWEA testing did not take place beyond Winter 2020 and no state CAASPP testing occurred in Spring 2020, staff have no norm-referenced measure of student progress in English/language arts over the entirety of the school year. That said, SIPPS assessments show that students participating in the reading intervention program made notable progress to the point of school closure, with many students able to test out of SIPPS when reading screenings were done in September 2020.

Analysis

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

All strategies listed in the plan were implemented up to the point of school closure. During the distance learning period of mid-March through the end of the year, the truancy process was put on hold because student participation was not compulsory.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

While overall attendance is strong, Pine Grove continues to experience chronic absenteeism at percentages, both overall and with subgroups, that are unacceptable. The reasons for this vary by student, although staff have seen an increase in the percentage of students experiencing emotional/mental health issues that get in the way of regular school attendance. These cases typically involve lots of individual contact between school office staff and administrators and the parents/guardians of the students. And yet these issues continue and need to be addressed.

Explain any material differences between the Proposed Expenditures and Estimated Actual Expenditures.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

With school attendance during distance learning returning to compulsory/required status for 2020-2021, staff will need to do even more frequent screenings of attendance/engagement data to see issues of chronic attendance and work to address them. Schools will participate in a successive response to student disengagement starting with the teacher, continuing with involvement by a school team led by the principal, and if necessary continuing with involvement by the district Educational Services Department. The focus will be on problem-solving and addressing barriers to attendance.

Resources such as WiFi hot spots, after-hours technology support, and after-hours support from a teacher will be utilized to overcome some of these barriers. The truancy process and School Attendance Review Board will be a last resort.

During school closure, the principal prioritized communication with parents/guardians on what was happening and why. Parents/guardians were invited to ask questions, share ideas, and express concerns.		

Analysis

Describe the overall implementation of the strategies/activities to achieve the articulated goal.
 All of the activities outlined in the plan were implemented. School use of Parent Square went up dramatically in 2019-2020, as it became the primary platform for the principal, teachers, and office staff to communicate with parents during school closure.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.
 Parent Square has continued to be a highly effective platform for school-home communication. Its ability to translate posts and text alerts into Spanish has proven extremely helpful for many families. Community liaisons provide indispensable support in translating for, and supporting, many families. The district put together parent education nights on compelling topics, but attendance remains low. Staff would like to see more parents capitalizing on these informative events.

Offer school extracurricular events to students to build community, teamwork, and leadership skills in students. For the 2019-20 school year, these programs include Battle of the Books, Author Go Round, Robotics, Makerspace, Student Council, Math Super Bowl, Track, and Classroom Buddies.	The school continued to offer a range of activities and programs to give students an opportunity for personal growth as well as a deeper connection with peers, staff, and the school. The Student Council involved students in planning school events and activities, school improvements, and service projects. Cocurricular opportunities included Robotics, Battle of the Books, Author Go Round, and the North County Math Super Bowl. Extracurricular activities included track.		

Analysis

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

All of the activities stated here were implemented, although PBIS and most of the cocurricular/extracurricular activities came to a halt during school closure. Schools take pride in the many ways in which students can be involved outside of the classroom.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

PBIS is making an impact at Pine Grove. School stakeholders have appreciated the opportunity to discuss what they want to see in students, come to consensus around common expectations, and articulate and teach those expectations to students. Schools are keeping and analyzing data on Office Discipline Referrals (ODRs). The PBIS in the Classroom series was well received by participating teachers. All of this being stated, suspensions districtwide are not decreasing. We need to continue work on strategies/activities to accomplish the goal of reducing suspensions.

Explain any material differences between the Proposed Expenditures and Estimated Actual Expenditures.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

Activities described in this section will need to be adjusted in 2020-2021 to fit the world of distance learning and blended learning (mix of in-person instruction and distance learning). Pine Grove staff made revisions in PBIS expectations to account for what they need from students in distance learning; meanwhile, those expectations will play an important role in retraining students to be on campus when schools are re-opened for blended learning. Schools are putting a greater emphasis on social/emotional learning in response to the stresses students and families are experiencing during the COVID-19 pandemic. Lessons in digital citizenship may help with cyberbullying.

Academic Engagement: Chronic Absenteeism

Goal Statement

All students and student groups will demonstrate an increase in daily school attendance and decrease in chronic absenteeism.

LCAP Goal

Provide inspiring, creative, healthy and safe environments that nurture imagination and compassion; fostering engaged, supported, and challenged students.

Basis for this Goal

According to the National Center for Education Statistics, attendance is an important factor in student achievement. The primary rationale for high-quality attendance data is the relationship between student attendance and student achievement. Chronic student absence reduces even the best teacher's ability to provide learning opportunities. Students who attend school regularly have been shown to achieve at higher levels than students who do not have regular attendance. Poor attendance has serious implications for later outcomes as well. High school dropouts have been found to exhibit a history of negative behaviors including high levels of absenteeism throughout their childhood at higher rates than high school graduates. These differences in absentee rates were observed as early as kindergarten, and students who eventually dropped out of high school missed significantly more days of school in first grade than their peers who graduated from high school. Any absence, whether excused or not, denies students the opportunity to learn in accordance with the school's instructional program, but students who miss school are sometimes further excluded from learning opportunities as a consequence of chronic absenteeism.

Goal 4

Subject

Supportive Learning Environments

Goal Statement

Students and parents/guardians will experience caring relationships with teachers and school staff, with the goal of 100% reporting they experience caring relationships with school staff all or most of the time.

LCAP Goal

Provide inspiring, creative, healthy and safe environments that nurture imagination and compassion; fostering engaged, supported and challenged students.

Basis for this Goal

Relationships are the positive connections between students, adults and peers in the school setting that foster positive social interaction and establish a nurturing environment of trust and support. According to the National Center on Safe Supportive Learning Environments, the relationships formed between students and school staff members are at the heart of school connectedness. Students who perceive their teachers and school administrators as creating a caring, well-structured learning environment in which expectations are high, clear, and fair are more likely to be connected to school. Additionally, parents/guardians need support and responsiveness from their children's schools, especially in a challenging time like the present.

Expected Annual Measurable Outcomes

Metric/Indicator	Baseline	Expected Outcome
Student Survey Parent Survey California Healthy Kids Survey	<p>October 2020 Students and parents were surveyed on items pertaining to the caring, responsiveness, and communication they experience at school.</p> <p>The student survey showed the percentage of students who indicated it was "pretty much true" or "very much true" that there were adults at school who really care about them (80%), notice when they are not there (73%), listen to them when they have something to say (78%), are there for them when they have a problem or concern (80%), and believe they will be a success (88%).</p> <p>The parent survey showed the percentage of parents who indicated they "agree" or "strongly agree" that school staff communicate with parents about what is happening at the school (88%), teachers communicate with parents about what students are expected to learn (85%), parents feel welcome to be</p>	<p>Increase % of students and parents/guardians reporting they experience caring relationships with school staff all or most of the time.</p>

Metric/Indicator	Baseline	Expected Outcome
	involved in the school (74%), there is someone at school to talk to about a problem or concern (79%), and school staff take parent concerns seriously (67%).	

Planned Strategies/Activities

Strategy/Activity 1

A. Focus on Relationships and Social/Emotional Learning

Teachers and schools will emphasize teacher-student relationships at the outset of the 2020-2021 school year. Regular lessons in social/emotional learning will be planned for Monday mornings. In grades TK-6, parent-teacher conferences will be moved up so teachers and parents/guardians can touch base earlier in the school year. Teachers will have regular office hours and availability during distance and blended learning.

B. Support for Families

The principal, teachers, and office staff will communicate regularly with families via Parent Square, email, newsletters, and/or online (website and social media) posts. The district will distribute a technology device to all students for use in distance and blended learning. As needed, families will be able to check out hot spots that provide WiFi access. The Technology Department will provide afterhours support to families. An hourly support teacher will be available after hours on Monday through Thursday nights to help students and parents/guardians with assignments and any issues pertaining to distance/blended learning. The district will provide a range of parent education offerings via Zoom and other virtual platforms.

Goal 5

Subject

Conditions & Climate: Suspension Rate

Goal Statement

All students and student groups will demonstrate a decrease in the rate of suspension from school.

LCAP Goal

Provide inspiring, creative, healthy and safe environments that nurture imagination and compassion; fostering engaged, supported and challenged students.

Basis for this Goal

The Learning Policy Institute shares that over the past several decades, researchers have noted that the overuse of suspensions and expulsions, particularly for students of color, has contributed significantly to dropout rates and the perpetuation of the "school-to-prison pipeline". Further, students of color and those with disabilities are suspended at a rate that is disproportionate to that of their White and non-disabled peers for comparable behaviors. The other effect of a student missing school due to a suspension is the resulting loss of student learning and affect on student achievement.

Expected Annual Measurable Outcomes

Metric/Indicator	Baseline	Expected Outcome
Suspension/Expulsion Rate	Suspension/expulsion rates for 2019-2020: 2.4% Suspension Rate (All Students) 0% African American 0% American Indian/Alaska Native 0% Asian 0.7% Hispanic/Latino 1.1% White 0% Two or more races 0% English Learners 1.3% Socioeconomically Disadvantaged 0% Foster Youth 0% Homeless Youth 0.5% Special Education 0% Expulsion	Decrease/Maintain suspension/expulsion rates for all students and subgroups under 2%.

Planned Strategies/Activities

Strategy/Activity 1

A. School Culture

At the outset of the school year during distance learning, teachers will focus on establishing relationships and rapport with students. The distance/blended learning schedule will be structured so teachers have time to be available for

students who desire one-on-one support. As possible during distance learning and ultimately blended learning, the school will continue implementation of Positive Behavioral Interventions and Supports (PBIS) in 2020-2021. The school will recast its rules/expectations to fit a time when students are learning both in person and virtually. The school will continue to utilize positive reinforcers (raffle tickets and classroom drawings) to encourage students to meet the expectations. The school will track Office Discipline Referrals (ODRs) to monitor trends and needs. As possible during distance and blended learning, the school will continue to provide cocurricular and extracurricular activities that build community, teamwork, and leadership skills in students. Activities possible during COVID-19 include Student Council, the library makerspace, and Battle of the Books.

B. Social/Emotional Learning and Support

Throughout the school year, teachers will devote a whole-class lesson on Monday mornings to social/emotional curriculum. Lessons will explore social/emotional competencies such as self-awareness, self-management, responsible decision making, relationship skills, and social awareness. As possible, teacher also will share curriculum on digital citizenship. Teachers will focus on maintaining a close rapport with their students. If needed, teachers can refer students with any struggles to the staff counselor or district psychologist.

Stakeholder Involvement

Meaningful involvement of parents, students, and other stakeholders is critical to the development of the SPSA and the budget process. As such, the SPSA should be shared with, and schools should request input from, school site-level advisory groups, as applicable (e.g., English Learner Advisory Councils, student advisory groups, etc.).

Describe the process used to involve advisory committees, parents, students, school faculty and staff, and the community in the development of the SPSA and the annual review and update.

Goals, Strategies, & Proposed Expenditures

In this section a school provides a description of the annual goals to be achieved by the school. This section also includes descriptions of the specific planned strategies/activities a school will take to meet the identified goals, and a description of the expenditures required to implement the specific strategies and activities.

Goal

State the goal. A goal is a broad statement that describes the desired result to which all strategies/activities are directed. A goal answers the question: What is the school seeking to achieve? A school may number the goals using the "Goal #" for ease of reference.

Basis for this Goal

Describe the basis for establishing the goal. The goal should be based upon an analysis of verifiable state data, including state indicator data from the California School Dashboard (Dashboard) and data from the School Accountability Report Card, and may include any data voluntarily developed by districts to measure pupil achievement.

Expected Annual Measurable Outcomes

Identify the metric(s) and/or state indicator(s) that the school will use as a means of evaluating progress toward accomplishing the goal. A school may identify metrics for specific student groups. Include in the baseline column the most recent data associated with the metric or indicator available at the time of adoption of the SPSA. The most recent data associated with a metric or indicator includes data reported in the annual update of the SPSA. In the subsequent Expected Outcome column, identify the progress the school intends to be make in the coming year.

Planned Strategies/Activities

Describe the strategies and activities being provided to meet the described goal. Strategies and activities that are implemented to achieve the identified goal may be grouped together. A school may number the strategy/activity using the "Strategy/Activity #" for ease of reference.

A school receiving funds allocated through the ConApp is required to describe in their strategies and activities how they will address specific state and federal requirements. A list of these requirements may be found in Appendix A: Plan Requirements for Schools Funded Through the ConApp. At a minimum a school receiving funds allocated through the ConApp must address these requirements; however, a school may describe additional strategies/activities as well.

Students to be Served by this Strategy/Activity

Indicate in this box which students will benefit from the strategies/activities by indicating “All Students” or listing one or more specific student group(s) to be served.

Proposed Expenditures for this Strategy/Activity

For each strategy/activity, list and describe the proposed expenditures for the school year to implement these strategies/activities, including where those expenditures can be found in the school’s budget. The school should reference all fund sources for each proposed expenditure and should provide budget references as an object code or an object code description.

Proposed expenditures that are included more than once in a SPSA should be indicated as a duplicated expenditure and include a reference to the goal and strategy/activity where the expenditure first appears in the SPSA.

Annual Review and Update

The planned goals, expected outcomes, planned strategies/activities, and proposed expenditures must be copied verbatim from the previous year’s approved SPSA. Minor typographical errors may be corrected.

Annual Measurable Outcomes

For each goal in the prior year, provide the metric/indicators, the expected outcomes, and the actual outcomes; review the actual outcomes as compared to the expected outcomes identified in the prior year for the goal.

Strategies/Activities

Identify the planned strategies/activities and the proposed expenditures to implement these strategies/activities toward achieving the described goal, then identify the actual strategies/activities implemented to meet the described goal and the estimated actual expenditures to implement the strategies/activities. As applicable, identify any changes to the student groups served.

Analysis

Using actual outcome data, including state indicator data from the Dashboard, analyze whether the planned strategies/activities were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the strategies/activities to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process.
- Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.
- Explain any material differences between Proposed Expenditures and Estimated Actual Expenditures. Minor variances in expenditures or a dollar-for-dollar accounting is not required.
- Describe any changes that will be made to the goal, expected annual measurable outcomes, metrics/indicators, or strategies/activities to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard, as applicable. Identify where those changes can be found in the SPSA.

Budget Summary and Consolidation

In this section a school provides a brief summary of the funding allocated to the school through the ConApp and/or other funding sources as well as the total amount of funds for proposed expenditures described in the SPSA. The Budget Summary is required for schools funded through the ConApp. The Consolidation of Funds is required for a school receiving funds allocated through the ConApp and consolidating those funds as part of a schoolwide program.

Budget Summary

A school receiving funds allocated through the ConApp should complete the Budget Summary as follows:

- **Total Funds Provided to the School Through the Consolidated Application:** This amount is the total amount of funding provided to the school through the ConApp for the school year. The school year means the fiscal year for which a SPSA is adopted or updated.
- **Total Funds Budgeted for Strategies to Meet the Goals in the SPSA:** This amount is the total of the proposed expenditures from all sources of funds associated with the strategies/activities reflected in the SPSA. To the extent strategies/activities and/or proposed expenditures are listed in the SPSA under more than one goal, the expenditures should be counted only once.

A school may include additional information or more detail.

Consolidation of Funds

A school receiving funds allocated through the ConApp and consolidating those funds as part of a schoolwide program is required to include a list of state and local programs and other federal programs that the school will consolidate in the schoolwide program. A list of commonly consolidated state and federal programs is provided in Appendix B: Select State and Federal Programs. List the federal funding source(s) and the amount(s) being consolidated in the schoolwide program, then list the state and/or local funding source(s) and the amount(s). Adjust the table as needed.

Appendix A: Plan Requirements for Schools Funded Through the ConApp

Basic Plan Requirements

A school receiving funds allocated through the ConApp is required to develop a SPSA. The content of a SPSA must be aligned with school goals for improving student achievement. School goals must be based upon an analysis of verifiable state data and may include any data voluntarily developed by districts to measure student achievement.

The SSC is required to develop the SPSA, which must address each of the following, as applicable:

1. A description of curricula, instructional strategies and materials responsive to the individual needs and learning styles of each student (described in the Strategies/Activities).
2. A description of instructional and auxiliary services to meet the special needs of non-English-speaking or limited-English-speaking students, including instruction in a language these students understand; educationally disadvantaged students; gifted and talented students; and students with exceptional needs (described in the Strategies/Activities).
3. A description of a staff development program for teachers, other school personnel, paraprofessionals, and volunteers, including those participating in special programs (described in the Strategies/Activities).
4. An identification of the schools' means of evaluating progress toward accomplishing its goals (described in the Expected Annual Measurable Outcomes) and an ongoing evaluation of the educational program of the school (described in the Annual Review and Update).
5. A description of how funds provided to the school through the ConApp will be used to improve the academic performance of all pupils to the level of state performance goals (described in the Proposed Expenditures for Strategies/Activities).
6. The proposed expenditures of funds available to the school through the programs described in EC Section 52851. For purposes of this subdivision, proposed expenditures of funds available to the school must include, but not be limited to, salaries and staff benefits for persons providing services for those programs (described in the Proposed Expenditures for Strategies/Activities).
7. The proposed expenditure of funds available to the school through the federal Improving America's Schools Act of 1994 and its amendments. If the school operates a state-approved schoolwide program in a manner consistent with the expenditure of funds available to the school pursuant to EC Section 52851, employees of the schoolwide program may be deemed funded by a single cost objective.
8. A description of how state and federal law governing programs identified in EC Section 64000 will be implemented, as applicable (described in the Strategies/Activities).
9. A description of any other activities and objectives as established by the SSC (described in the Strategies/Activities).

The SPSA, including proposed expenditures of funds allocated to the school through the ConApp, must be reviewed annually and updated by the SSC.

Authority cited: EC sections 64001(f)-(g) and 52853(a)(1)-(7).

Schoolwide Program Requirements

A school receiving funds allocated through the ConApp and operating a schoolwide program (SWP) must describe how the school will carry out each of the following components:
